# DoD IN KANSAS

## We Must Train As We Fight

Our troops deserve unfettered space and natural conditions to properly train and prepare for potential real world combat environments. This enhances their success and survivability by insuring doctrinally rehearsed, responsive and appropriate fighting skills.

Training on the Colorado River

Crossing the Saddam Canal, Iraq

KANSAS' Signature Industries

### Annual Contribution

Professional, Scientific and Technical Services	\$7.2B
Natural Resources and Mining	\$7.1B
Agriculture, Forestry, and Fishing	\$5.4B
Construction	\$4.6B
Department of Defense	\$4.4B

Bureau of Economic Analysis, 2012

### Did You Know In KANSAS

- Fort Leavenworth hosts the primary school for training America's senior military officers and civilians of the future.
- Fort Riley is home to the Army's 1st Infantry Division and utilizes state-of-the-art equipment to conduct large scale battle simulation exercises.
- McConnell Air Force Base is home to one of only three supertanker wings that provide global reach for the Air Force.

## Maintaining A Natural Environment Is Critical

We must manage and use our military training and testing ranges so they are always available to meet mission requirements. Sustaining our diverse physical and environmental resources is critical to maintaining Soldier readiness.

## Linking DoD And The State

The sustainable futures of our installations and our communities are inextricably connected. We are committed to working with state legislatures; regional, state, and local agencies; communities; and NGOs to insure compatibility between communities near our bases and the military mission.

Sustaining Readiness In Partnership With States

# DoD IN KANSAS

## Forbes Field, Air National Guard

Forbes Field is home to the 190th Air Refueling Wing (ARW) of the Kansas Air National Guard (KANG). It occupies 215 acres on the south side of Topeka Airport, located approximately five miles south of downtown Topeka, Kansas. The mission of the 190th ARW is to "Provide a professional trained militia, ready to serve community, state, and nation." The 190th ARW occupies seven administrative facilities, 16 industrial facilities, and two services facilities totaling approximately 523,100 square feet with 323 full time personnel. Unit training drills conducted once a month result in a surge of up to a total of 1,152 personnel. The 190th ARW provides Global Reach for the United States Air Force through in-flight refueling of fighters, bombers and other aircraft using the KC-135 Stratotankers such as the one flying over Topeka, the State Capitol.

## Smoky Hill Range Air National Guard

Smoky Hill Air National Guard (ANG) Range near Salina, Kansas, is the largest bombing range in the Air National Guard inventory. Within Smoky Hill's 34,000 acres lies a 12,000 acre target area, which is comprised of dual conventional ranges and three large tactical ranges. These tactical ranges provide the most realistic air-to-ground training available for all types of military aircraft. Smoky Hill also has four drop zones for cargo aircraft. In light of recent military technological applications, ANG F-16s are being modified to deliver precision guided munitions providing pinpoint accuracy to destroy enemy targets. To successfully deliver this weapon, pilots must practice deliveries on a recurring basis to obtain the highest degree of combat proficiency. Smoky Hill is one of three ANG air-to-ground ranges in the United States where pilots can practice these deliveries.

## McConnell AFB

McConnell Air Force Base is the home of Air Mobility Command's 22nd Air Refueling Wing (22 ARW), Air Force Reserve Command's 931st Air Refueling Group (931 ARG), and the Kansas Air National Guard's 184th Intelligence Wing (184 IW). McConnell supports worldwide aerial refueling and airlift operations, thus providing global reach for troops, equipment, and supplies in support of global contingency and conventional operations.

## Fort Riley

Known as the "Home of America's Army," Fort Riley is located at the confluence of the Smoky Hill and Republican rivers in north central Kansas. This historic post is host to Headquarters, 1st Infantry Division (the Big Red One) and the 1st, 2nd and 4th Brigade Combat Teams, Combat Aviation Brigade; and 1st Sustainment Brigade along with a Battle Simulation Center that utilizes state-of-the-art equipment to conduct brigade/battalion battle simulation exercises. Throughout the year, Fort Riley also provides assistance to the Army National Guard (ARNG) and the United States Army Reserve. Fort Riley provides continuous training including live fire training for artillery, tanks and other heavy weapons for Soldiers of the Big Red One and other units.

## Fort Leavenworth

Fort Leavenworth, Kansas is the oldest continuously operating military installation west of the Mississippi River and is the Army's center for excellence in combined arms education, doctrine, and leader development. This historic post, noted for its campus setting, open green spaces and hometown character, is the home of the Army's Combined Arms Center (CAC), a major subordinate headquarters of the Army Training and Doctrine Command. CAC has often been referred to as the "Intellectual Center of the Army" and is engaged in the mission of preparing the Army and its leaders for war. Fort Leavenworth is home of the U.S. Army Command and General Staff College and the Foreign Military Studies Office. Fort Leavenworth is also home to the Military Corrections Complex, consisting of the United States Disciplinary Barracks, the Department of Defense's only maximum security prison, and the Midwest Joint Regional Correctional Facility.

## National Guard and Other Reserve Components

The Guard and Reserve organize, train, and equip citizen soldiers/airmen to ensure their rapid mobilization for duties within the state, nation, and around the world. While all Reserve Components have a federal mission to augment active duty forces in times of crises, the Guard has the additional, unique mission of serving the Governor during state emergencies. Guard and Reserve units are stationed throughout the state.
