

Environmental Condition of BRAC Property

This appendix provides a summary of the environmental condition of property at Department of Defense (DoD) installations identified for closure or realignment by the Base Realignment and Closure (BRAC) Commissions in 1988, 1991, 1993, and 1995.

To expedite the transfer of property at BRAC installations, Congress passed the Community Environmental Response Facilitation Act (CERFA) (Public Law 102-425), which amended the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) §120(h) (42 U.S.C. §9620(h)). CERFA stipulates that, for U.S.-owned real property on which federal government operations will be terminated, the federal department, agency, or instrumentality with jurisdiction must identify the real property on which no hazardous substances and no petroleum products or petroleum-product derivatives were known to have been released or disposed of.

Regulatory concurrence on property that is determined to be “uncontaminated” must be obtained from the Administrator of the U.S. EPA for real property that is part of a facility on the National Priorities List (NPL). Similarly, regulatory concurrence must be obtained from a state official for real property that is part of a facility not on the NPL. For real property affected by base closure laws, the required identification of, and concurrence on, uncontaminated property must be made within 18 months of the date on which the real property is selected for closure or realignment.

Assessment of property and identification of uncontaminated property at BRAC installations are conducted in accordance with CERFA and the DoD Policy on the Implementation of the Community Environmental Response Facilitation Act (CERFA) (May 1996). An Environmental Baseline Survey is undertaken to document the environmental condition of the property, including the identification of uncontaminated property as required by CERFA. DoD guidance defines seven categories for describing the environmental condition of property, based on the extent of environmental contamination on the property and on the status of any associated restoration activities. Category 1 property is considered uncontaminated for the purpose of CERFA concurrence. DoD environmental-condition-of-property categories are as follows:

- **Category 1:** Areas where no release or disposal of hazardous substances or petroleum products has occurred (including no migration of these substances from adjacent areas).
- **Category 2:** Areas where only release or disposal of petroleum products has occurred.
- **Category 3:** Areas where release, disposal, and/or migration of hazardous substances has occurred, but at concentrations that do not require a removal or remedial response.
- **Category 4:** Areas where release, disposal, and/or migration of hazardous substances has occurred and all removal or remedial actions to protect human health and the environment have been taken.

- **Category 5:** Areas where release, disposal, and/or migration of hazardous substances has occurred and removal or remedial actions are under way, but all required remedial actions have not yet been taken.
- **Category 6:** Areas where release, disposal, and/or migration of hazardous substances has occurred but required actions have not yet been implemented.
- **Category 7:** Areas that have not been evaluated or require additional evaluation.

For each installation listed, this appendix provides installation name; Federal Facility Identification Number (FFID); state or territory; BRAC Commission year; total installation acreage; installation acreage to be transferred out of DoD (i.e., excess property to be transferred to another federal agency or to a non-federal entity); excess property acreage by environmental-condition-of-property categories; CERFA-uncontaminated (clean) acres proposed by the DoD Component; and CERFA-uncontaminated acres concurred on by the appropriate regulatory authority.

Some installations in this appendix have no acreage listed, or have no acreage identified for realignment or closure (i.e., acreage to be determined). Descriptions of these occurrences are provided to the right with the name, FFID, and BRAC year for each installation for which that description applies.

1. The installation property is leased by the Component (the Component does not own the property).

Army	FFID	BRAC Year
Fort Indiantown Gap	PA321402044400	1995
Housing Area Worth, IL	IL521401755200	1988

2. The installation is impacted by chemical demilitarization missions and will not have acres identified for transfer outside of DoD until that mission is completed, or until the property is determined to be transferable (this does not preclude leases on the property from occurring).

Army	FFID	BRAC Year
Pueblo Chemical Depot	CO821382072500	1988
Umatilla Chemical Depot	OR021382091700	1988

Army	FFID	BRAC Year
Big Coppett Key	FL421401204800	1995

Housing Area Holmdel, NJ	NJ221403465500	1988
Housing Area Old Bridge, NJ	NJ221403466100	1988

3. The installation property was transferred within DoD.
