

APPENDIX B

SIKES ACT

The Sikes Act, as amended in 1997, requires Department of Defense (DoD) installations to prepare integrated natural resource management plans (INRMPs). The plans assist base commanders in conserving and rehabilitating natural resources while supporting the military mission. Installations must review and update these plans every five years.

Installations are required to seek the cooperation of the U.S. Fish and Wildlife Service (FWS) and appropriate state fish and wildlife agencies concerning natural resource management. This is to ensure that DoD, FWS, and state agencies concur on resource management practices and to provide DoD with access to the expert knowledge of the FWS and state agencies.

The 1997 Amendments required installations to complete and update their plans by November 18, 2001. As of that date, all but 39 plans (10 percent) were complete. The remaining plans are complete but were in coordination with FWS or state fish and game officials when the November 18 deadline passed.

Installations are required to report specific data annually. The data categories on the following pages are self-explanatory except "Current List of Projects," which refers to whether or not the installation has a current list of projects or methodologies essential to implement the plan's objectives for the next fiscal year.

DoD Component	FY 2001 Sikes Act Reporting Data
	Total Spent on INRMPs in FY 2001

Army	\$31,318,916
Navy	\$3,458,262
Marine Corps	\$1,402,088
Air Force	\$6,913,288
Defense Logistics Agency	\$24,690
Total	\$43,117,244

CODES:

Y = Complete and Current

P = Partially Complete or Ongoing

N = No, But Needed

N/A = Not Applicable

Defense Fuel Support Point, San Pedro*	CA		Y	\$24,690	In Progress	N	
Defense Fuel Support Point, Susquehanna**	PA		Y		In Progress	N	

* FWS granted DFSP San Pedro a letter of approval of the INRMP on November 2, 2001. Presently, DFSP San Pedro is awaiting concurrence from the CA Department of Fish and Game. Once the state approves the INRMP, DFSP San Pedro Commander will sign and date the plan. Based on this final signature date, the date of the next INRMP can be determined.

** The INRMP for Defense Depot Susquehanna is dated February 1998. It was found to lack an environmental assessment and additional changes were required to comply with the Sikes Act. Once these changes are made, it will be more efficient to establish new dates for the plan once approval is granted from USFWS. Otherwise the plan would have to be rewritten within a short time.
