The Navy Environmental Health Center Presents:
*45th Navy Occupational Health
and Preventive Medicine Workshop*

Hampton Roads Conference Center, Hampton, VA
18-23 March 2006

"NAVAL MEDICINE AS A
DEFENSIVE WEAPONS SYSTEM"

NEHC's annual conference focuses on military medical readiness, deployment health, and "state-of-the-art" technology.

Achieve professional and technical education and growth, collaborate and liaison with members of military, federal and state community agencies and academia, and earn Continuing Education Units/Credits (CEUs).

**Be sure to visit the
DoD Ergonomics Working Group Booth!
Exhibit Hall, 20-21 March**

"Ergonomics Short Course," 18-19 March

This 2-day course is an interactive, practical approach to ergonomics with extensive class exercises and case studies of Navy and Marine Corps work environments. This course is intended for OSH specialists, industrial hygienists, occupational medicine doctors, and occupational health nurses. Upon completion of this course, students will have a firm understanding of the ergonomics affecting their work environments and how to abate them. The course instructors are both professional certified ergonomists and engineers with the Navy Ergonomics Program.
