

The Sikes Act, as amended in 1997, requires Department of Defense (DoD) installations to prepare integrated natural resource management plans (INRMPs). The plans assist base commanders in conserving and rehabilitating natural resources while supporting the military mission. Installations must review and update these plans every five years.

Installations are required to seek the cooperation of the U.S. Fish and Wildlife Service (FWS) and appropriate state fish and wildlife agencies concerning natural resource management. This is to ensure that DoD, FWS, and state agencies concur on resource management practices and to provide DoD with access to the expert knowledge of the FWS and state agencies.

Some installations that have reported INRMPs in the past may no longer be required to report. INRMPs may no longer be required if an installation has closed, is in the process of closing, has been granted an official waiver, or no longer meets the criteria for requiring an INRMP.

Installations are required to report specific data annually. The data categories on the following pages are self-explanatory except “Current List of Projects,” which refers to whether or not the installation has a current list of projects or methodologies essential to implement the plan’s objectives for the next fiscal year. This data is current as of September 30, 2003.

| <b>DoD Component</b>                    | <b>FY 2003 Sikes Act Reporting Data</b> |
|---|---|
| <b>Total Spent on INRMPs in FY 2003</b> |   |
| Army                                    | \$52,803,800                            |
| Navy                                    | \$5,613,507                             |
| Marine Corps                            | \$10,907,806                            |
| Air Force                               | \$24,924,572                            |
| Defense Logistics Agency                | \$157,824                               |
| <b>Total</b>                            | <b>\$94,407,509</b>                     |
