

20264), are recommended for closure. Fort Des Moines is on the National Register of Historic Places and the Defense Department should coordinate with the State Historic Preservation Office and the Advisory Council on Historic Preservation to develop appropriate preservation guidelines. There are no relocation costs associated with this recommendation. One building and some of the land are contaminated with pesticides and other contaminants, possibly asbestos and PCB. Cleanup of these sites is covered by the Defense Environmental Restoration

Program. Cleanup is independent of the closure action.

-- The Commission recommends the **Indiana Army Ammunition Plant** for partial closure. Approximately 900 acres on the north side of the installation that do not support any military mission are recommended for closure. There are no relocation costs associated with this recommendation since no personnel are assigned in this area. No significant environmental problems are anticipated from the closure.
