

Department of Defense Operation and Financial Support for Military Museums

Fiscal Year 2013 Report to Congress

April 2014

Office of the Under Secretary of Defense
for Acquisition, Technology, and Logistics

The estimated cost of this report or study for the Department of Defense is approximately \$20,000 in Fiscal Years 2013 - 2014. This includes \$13,000 in expenses and \$7,480 in DoD labor.
Generated on 2014Apr16 RefID: E-78261E4

The Department of Defense (DoD) operates 87 military museums, spanning the rich and varied history of the U.S. military. Museums are a critical link between the public and the military, and these museums play a crucial role in educating the public on the multi-faceted nature of the military mission. This congressionally mandated report provides an overview of museum missions, funding, management structures, and education and partnership initiatives by state and DoD Component.

DoD currently uses 346 buildings for museum purposes. While some museums are located in new facilities, others are housed in historic buildings adapted for museum use. Twenty-nine DoD museums have buildings or structures that are listed in, or eligible for listing in the National Register of Historic Places. Thirteen museums include buildings that are contributing elements of a National Historic Landmark District, and one museum collection itself is designated as a National Historic Landmark. A detailed listing of museum building descriptions is located in Appendix A.

The Department receives appropriated funding for museums through Operations and Maintenance (O&M), Military Personnel, Military Construction, and Procurement Appropriations. Appendix B of this report focuses on a financial breakdown for each museum. In Fiscal Year (FY) 2013, the Department invested approximately \$91.1 million in appropriated funds to manage and maintain military museums. DoD Components supplemented this investment with approximately \$7.5 million in non-appropriated funds and other sources, including donations, gifts, and gift shop sales.

Table 1: FY 2013 DoD Museum Funding

DoD Component	Millions of Dollars (Estimate)
Army (Appropriated)	36.6
Navy (Appropriated)	16.3
Marine Corps (Appropriated)	14.6
Air Force (Appropriated)	17.2
Other Defense Agencies (Appropriated)	6.4
Non-appropriated & Other Sources	7.5
Total	98.6

Professional staff and dedicated volunteers play a pivotal role in the success of the Department's museums. Appendix C details the number of full-time and part-time staff, military and civilian personnel who work for the DoD museums. In FY 2013, DoD museum personnel were essential in creating and maintaining 1,309 educational affiliations and partnerships, both within DoD and with non-DoD entities. Appendix D lists these educational affiliations and partnerships in addition to detailing the number of full-time and part-time volunteers who work at the museums.

DoD museums are highly visited attractions, hosting approximately 7 million visitors and students in FY 2013. DoD museums serve a unique training role for military personnel, contribute to the Military Mission, and are often a part of mandatory training elements. Museum collections are used as teaching aids to help facilitate Military Service member training and leadership development. DoD encourages the study of history through its museum collections, to broaden the knowledge and professionalism of Military Service members by creating an understanding of how the past informs potential future responses to events during times of war and peace.

In accordance with 10 U.S.C. §489, this annual report provides information on the purpose, function, funding, and facilities of DoD owned and operated military museums. The report also includes descriptions of military museum management structures, staffing breakdowns, acquisition details, partnerships and educational affiliations, and the number of museum visitors. This information is located in the following four appendices:

- *Appendix A - Description of Military Museums*
- *Appendix B - Funding for Military Museums*
- *Appendix C - Management Structure for Military Museums*
- *Appendix D - Additional Information on Military Museums*

Military museums play an integral role in maintaining our Nation's history. The Department remains committed to excellence in museum management, exercising professional standards and practices, and increasing operational efficiency to ensure that these valuable resources are available to all members of the Military Services, their families, and the general public for years to come.

Appendix A

FY 2013 Description of Military Museums

Appendix A contains information on each military museum, including its purpose and function, justification, building description (including size and number), and historic status.

Several types of facilities house military museum collections, including historic buildings, new buildings, and renovated facilities. Each DoD Component carefully evaluates usage needs to determine the appropriate type of facility for housing historical collections. Twenty-nine DoD museums have buildings or structures that are on, or eligible for listing on, the National Register of Historic Places. Thirteen museums include buildings that are contributing elements of a National Historic Landmark District, and one museum collection is designated as a National Historic Landmark.

U.S. Army Aviation Museum						
Fort Rucker www.armyavnmuseum.org			6	169,320	No	No
<p>The mission of the U.S. Army Aviation Museum is to collect, preserve, and interpret through exhibition and programs the physical heritage and items of historical significance related to the history of Army Aviation, and the scientific and technological advancements represented in Army Aviation from 1908 to present. It will serve as the DA repository for Army Aviation related artifacts, documents, and other appropriate items to educate the public and service members of the Armed Forces on the military heritage, traditions, and history of Army Aviation.</p>	<p>The Aviation Museum serves as a core collection for aviation artifacts for the US Army and is responsible for maintaining 160 historic aircraft to include many significant one-of-a-kind examples of research and development in rotary wing / vertical flight. It shall serve to foster the study of Army Aviation doctrinal and technological developments, and to stimulate esprit de corps by presenting the Army Aviation storyline through interpretive exhibits.</p>	<p>The public dimension of the museum is housed in an 85,000 sq. ft. facility with approximately 65,000 sq. ft. dedicated to exhibition. The museum also offers a small theater with seating for 40 and a gift shop. The exhibits trace the evolution of aviation within the Army, clothing and equipment of Army aviators, and approximately 46 aircraft and 12 unmanned aerial vehicles are on display at any one time.</p>

Army

Fort Huachuca Museum		Fort Huachuca www.army.mil/CMH/Museums/links.htm		3	19,500	Yes	No
The mission of the Fort Huachuca Museum is to operate an Army museum for the morale and spirit of Soldiers; to provide training in the history and traditions of the Army; to acquaint the public with this history, and the accomplishments of the Army in the Southwest.	The Fort Huachuca Museum is responsible for: collecting, identifying, and cataloging items for the Army; planning the museum collection and exhibits so that they are meaningful for the visitor; preserving and conserving Army artifacts in the collection; and providing educational services for Soldiers and visitors (tours, study guides, lectures, staff rides, guest speakers).	Main Museum: Located on old post across from the parade field; built in 1892 as the Officer's Club; on the Historic National Register; approx. 6,000 sq. ft. of display, office, Gift Shop space with storage for supplies in the basement. The exhibit spans the time period: 12,000 BC to World War II. Annex Museum: 6,000 sq. ft.; Housed across the street from the main museum in former WWII-era post theater. Houses the artifact collection, a large diorama and displays covering 1880-1954. Army Intelligence Historical Holding: 6,000 sq. ft.; One block from other two buildings this museum is housed in the former post print plant building; displays the history of Army Intelligence from the Revolutionary War - Vietnam War; ceremonies & training held in the main gallery.

Purpose and Function	Justification	Description	# of Buildings	Square Feet	National Register	National Historic Landmark
To preserve for the nation and the Army the material culture associated with the U.S. Army Yuma Proving Ground (YPG) and it's predecessor activities and facilities. To provide for it's historical interpretation in order to educate and train the current organization(s) of the U.S.YPG and inform and educate the visiting public about the historic missions performed by these camps, installations, and test facilities. Additionally, the purpose of the Heritage Center is to identify, collect, research, and preserve historically significant properties and maintain them as usable resources for scholars and other interested individuals.	The Heritage Center of YPG is the responsible steward of the Army's heritage assets specific to YPG that includes accountability, preservation, and security of historical artifacts, as required by federal laws. The Center promotes that all-important sense of community and esprit de corps for current and future generations of scientists, engineers, technicians, and Soldiers working in the multi-disciplinary field of practice known as Research, Development, Test & Evaluation (RDT&E). This body of work and the communities of practice they encompass occur within various natural environmental test settings that each serve as a key component of the DoD Major Range and Test Facility base. By leveraging the unique opportunities provided by this vital defense work, the museum provides a unique educational venue for the scientific and technical personnel of YPG, Soldiers, their families, and the local community by serving as a center of informal education with a specific focus on science, technology, engineering and math (STEM) related subject areas. The Heritage Center is a central component of our learning organization as well as the main public access point for our local communities and the increasing number of cultural / heritage tourists.	The Heritage Center itself is located in a 14,540 sq. ft. wood frame, single story building (Bldg. S-2) which served as the Post Headquarters from 1949 until the late 1980's. The facility is comprised of the many and various rooms which have been converted for use as administrative areas, conservation and artifact storage areas, an exhibit fabrication and support area, a research and reference center as well as dedicated exhibit galleries. There are currently ten (10) exhibit galleries with another eight (8) galleries planned. The interpretive presentations include graphic displays, photographs, text, multimedia information kiosks, audio presentations and historical artifacts exhibited within thematically designed gallery spaces. The museum learning environment is enhanced by two (2) class rooms and a small theater that is used for public presentations, meetings and educational work space. There is a central outdoor interpretive area for the exhibition of macro objects and numerous other areas within YPG and around the Heritage Center where large, macro artifacts are on exhibit. Within the Range Operations Center (Bldg. 2105) there is approximately 2640 sq. ft. of newly created remote exhibits and displays related to the history and functional areas of YPG.

Navy

U.S. Navy Seabee Museum						
Naval Base Ventura County, Port Hueneme			1	38,833	No	No
The mission of the U.S. Navy Seabee Museum is to select, collect, preserve and display historic material relating to the history of the Naval Construction Force, better known as the Seabees, and the U.S. Navy Civil Engineer Corps for the benefit of the U.S. Navy and the people of the United States.	The U.S. Navy Seabee Museum serves as the principal repository of artifacts and archival material relating to the history of the Civil Engineer Corps and U.S. Navy Seabees. The Museum ensures proper documentation, care, and preservation of this essential information about the history of the naval shore establishment and the operations of the Naval Construction Force, and allows members of the Navy, veterans, and the public to access the collection.	The Museum is located in a purpose-built museum facility which opened in July 2011. The Museum has approximately 20,000 sq. ft. of exhibit galleries, a 4,000 sq. ft. humidity/temperature collection storage area, administrative offices, a museum store, a 50-seat theater, a reference library/research facility, and other conference and education facilities.				

U.S. Naval Museum of Armament & Technology						
Naval Air Weapons Station, China Lake www.chinalakemuseum.org			1	17,040	No	No
The U.S. Naval Museum of Armament and Technology documents, preserves, interprets, and displays artifacts, records, and other historical material that depict the history of the Naval Air Weapons Station China Lake and the development of naval armament and technology from World War II to the present, including air-, sub- and surface-launched atomic weapons, rockets, and missiles.	The Naval Ordnance Test Facility was established in 1943 as a unique experiment, blending military and civilian professionals. Since then, the organization has grown from a handful of military pilots and California Institute of Technology professors testing bombs and rockets to over 5,000 personnel. During the Cold War and continuing today, a majority of the free world's weapons have had their origins at China Lake, and its history serves to inspire and educate current and future U.S. Navy leaders, scientists, engineers and the American public.	The Museum occupies a former Officers Club converted into a public exhibition space to interpret and display a selection of the NAVAIR-owned and managed artifact collection from Naval Air Weapons Station China Lake. The Museum includes an outdoor air park containing an exceptional collection of aircraft and large weapons. In October 2010, Command Naval Air Weapons Station China Lake assumed operational support.

Marine Corps

Camp Pendleton Historical Program						
Marine Corps Base, Camp Pendleton www.cpp.usmc.mil/cpao/pages/about/history/museums.htm			11	74,423	Yes	No
Camp Pendleton Historical Program collects, records, preserves, and illuminates the historical legacy of Marine Corps Base Camp Pendleton and its personnel for present and future generations.	The Historical Program preserves and provides essential U.S. Marine Corps, regional, and base history source materials; historical facilities; and programs that support Command staff and military, general audience, and student education.	Camp Pendleton Historical Program includes: 1. Marine Corps Mechanized Collection is housed in Building 2612, a World War II-era wooden building, including vehicles from Vietnam to Desert Storm. Buildings 2631, 26031, 26042, 2616 used for restoration of vehicles and armament. 2. Ranch House (NHS and State Historic Landmark (SHL); Building 24154; adobe structure); former home of CGs for 60 years. 3. Bunk House (Building 24152; part of the NHS/SHL); historic adobe structure. 4. Chapel (NHS; Building 24150; associated with NHS/SHL); historic adobe structure. 5. Historical Program Offices and Base Archives (Building 1160). 6. Storage spaces (Buildings 2613, 2285).				

Flying Leatherneck Aviation Museum						
Marine Corps Air Station Miramar, San Diego www.flyingleathernecks.org			2	32,000	No	No
The Flying Leatherneck Aviation Museum memorializes, dedicates, and honors U.S. Marine Corps aviation achievements, sacrifices, and duty to the nation by providing static displays and galleries to educate members of the military and the general public about the role of the U.S. Marine Corps in national defense.	The Museum provides a significant component to staff planning and command decisions; an essential element of Professional Military Education (PME); source material for the study and development of military history, art, and science; substance to tradition; and enhances esprit de corps.	The Museum consists of a trailer complex and a warehouse, which provide administrative, storage, restoration, archive/library, and exhibit space.

Air Force Flight Test Museum Edwards Air Force Base www.edwards.af.mil/museum						
The Air Force Flight Test Museum collects, preserves, interprets and displays objects pertaining to the history of Edwards Air Force Base, its antecedents, and our nation's flight test heritage. The Museum's proximity to related aerospace activity conducted by the National Aeronautics and Space Administration (NASA) and industry makes this U.S. Air Force historical facility a vital component in telling the comprehensive and exciting story of test flight.	This museums is necessary and geographically relevant because of the overwhelming popularity and recognition accorded to test pilots and the experimental aircraft and spacecraft they fly. To preserve the material history of Edwards Air Force Base and our nation's flight test heritage, the Museum received Secretary of the Air Force approval in 1990.	Museum includes five buildings totaling 43,810 sq. ft.: Building 5295, 12,000 sq. ft. containing offices, a library, collection management space, a gift shop and a theater; a warehouse: 8,000 sq. ft. for shop area and storage of supplies and materials (Building 4915); restoration work space and an aircraft storage area (20,600 sq. ft.) in Hangar 1864; a storage area in Building 3920 (2,250 sq. ft.); plus additional space at Blackbird Airpark Visitor Center at U.S. Air Force Plant 42, which includes a three acre outdoor display and a 960 sq. ft. visitor center.	5	43,810	No	No

Edward J. Peterson Air and Space Museum Peterson Air Force Base www.petemuseum.org			4	25,300	Yes	No
Edward J. Peterson Air and Space Museum provides educational outreach programs to local community schools, civic organizations, and professional military education entities. Three regional U.S. Air Force communities utilize the museum for individual and group ceremonies, such as changes of command, promotions, retirements, and DV receptions. The museum provides safe, professional archival storage and exhibition of rare military cultural artifacts. The museum's Spanish House is used by the Air Force for distinguished visitor quarters.	The museum provides a means to tie Colorado Springs aviation history, the Air Force's role in space, and the defense of North America to our civilian and military community. Edward J. Peterson Air and Space Museum provides a publicly accessible venue to showcase current and past military missions.	The museum occupies 8.6 acres with four buildings, eleven static display aircraft, and four missile systems. The four buildings comprise the Colorado Springs Municipal Historic District (listed in the National Register). The City Terminal (3,550 sq. ft.), served as the first passenger terminal for the Colorado Springs Municipal Airport. It currently houses admin offices, a gift shop, visitor orientation, and exhibits. The City Hangar (9,500 sq. ft.) currently houses air defense, missile warning, and space operations exhibits. The operations building (2,250 sq. ft.) houses admin offices, exhibit construction workshops, and storage. The Broadmoor Hangar (10,000 sq. ft.) has served as administrative offices and curatorial storage since July 2007. Since Jan 2010 the museum has begun conversion of the Broadmoor Hangar for expanded exhibit and functional space.

Navy

U.S. Navy Submarine Force Museum and Historic Ship NAUTILUS Submarine Base New London, Groton www.usnautilus.org			2	36,172	Yes	Yes
The U.S. Navy Submarine Force Museum collects, preserves, and educates naval personnel and the general public about the history, heritage, and achievements of the Submarine Force.	The U.S. Navy Submarine Force Museum, along with USS NAUTILUS, the world's first nuclear powered submarine, trace the development of the "silent service" from the Revolutionary War to the modern submarines used by the Navy today. The Museum is the Navy's official submarine museum and the primary repository for the artifacts and documents relating to the history and development of the U.S. Submarine Force. These collections are used to educate the public and the Navy about the heritage and operation of American submarines.	The Museum complex encompasses approximately four acres in a landscaped, park-like setting with independent parking and access that hosts outdoor exhibits of large-scale submarine artifacts and midget submarines. The Museum itself is a professionally designed stand alone structure with pier facilities supporting USS NAUTILUS (SSN 571). A separate warehouse on board Sub Base New London is used to process and store artifacts in the Museum's collection.

Air Force

Air Mobility Command Museum						
Dover Air Force Base http://amcmuseum.org/			3	48,705	Yes	No
<p>The primary mission of the Air Mobility Command Museum is to present the history and development of military airlift and tanker operations. The second closely aligned mission is to portray the rich history of Dover Air Force Base and its predecessor, Dover Army Airfield. This is accomplished through the use of educational exhibits, representative vintage aircraft, and multimedia presentations. The Museum covers U.S. Army Air Corps, U.S. Army Air Force, and U.S. Air Force accomplishments. It also recognizes personnel who served as enlisted, officer, or civilian members of these organizations, as well as the contributions of spouses and the community to the airlift/tanker mission.</p>	<p>The Air Mobility Command Museum is the only museum in the U.S. dedicated to airlift and air refueling aircraft. There are a number of rare aircraft preserved here that are either the first, last, or only remaining aircraft of their type. Military airlift and air refueling aircraft are the most under-represented aircraft in both civilian and military museum collections around the country, and in today's world they are the image of American Airpower seen most often by the world.</p>	<p>The Museum is located at the south end of Dover Air Force Base in a renovated hangar that is listed on the National Historic Register. During World War II, it was the site of the Army Air Force rocket test facility. The main museum compound encompasses approximately 25 acres. It is directly accessible to the general public and is physically separated from the main base by a perimeter grade chain link fence topped with a double row of barbed wire. The main hangar structure resembles a large Quonset hut. It measures 120' x 160' inside, with full width opening doors on both ends. This provides 20,640 sq. ft. of clear area for inside aircraft display. A seven acre airpark constructed of stressed concrete and asphalt abuts the west hangar doors of the Museum. The Museum also uses two Quonset huts of 2,400 square feet each for displays and storage.</p>

National Museum of the U.S. Navy						
Washington Navy Yard, DC www.history.navy.mil/branches/nhcorg8.htm			2	98,582	No	Yes
The National Museum of the U.S. Navy preserves and interprets the overall history of the U.S. Navy and the impact of American sea power, from the Revolutionary War to the present. The purpose of the Museum is to educate naval personnel and the public about the heritage and traditions of the Navy.	Located on board the Washington Navy Yard, the National Museum of the U.S. Navy serves as the Service's Flagship institution within the National Capital Region. It displays naval artifacts, models, documents, and fine art that chronicle the history of the U.S. Navy from the American Revolution to present day conflicts. The Museum is accredited by the American Association of Museums.	The Museum is physically co-located with the headquarters and main components of the Navy History and Heritage Command. Its facilities comprise two public exhibition buildings, which also include artifact storage, exhibit workshops, office spaces and educational spaces.

National Naval Aviation Museum		Naval Air Station, Pensacola http://naval.aviation.museum/intro.html		6	436,461	No	No
The National Naval Aviation Museum collects, preserves, and displays material representing the history and heritage of naval aviation.	The National Naval Aviation Museum is devoted exclusively to Navy, Marine Corps, and Coast Guard aviation history. As one of America's premier aviation museums, it displays and interprets more than 150 aircraft spanning the history of naval aviation from 1911 to the present day. In addition, the Museum manages nearly 850 aircraft on outgoing loan to other museums and historical sites as well as municipalities and military bases. In addition to the aircraft, holdings include a small artifact collection of over 30,000 items and an extensive archives. The Museum is accredited by the American Association of Museums.	The Museum comprises exhibit, storage, and maintenance/restoration facilities as well as outdoor space for additional storage and display of large artifacts. The 273,000 sq. ft. main facility houses over 100 full-size aircraft as well as numerous exhibits, administrative offices, a 525-seat theater, a 110-seat café, an 8,000 sq. ft. museum store, a reference library/research facility, and other conference and education facilities in support of U.S. Navy customers and general visitors. Hangar Bay One has an area of 55,000 sq. ft. and houses aircraft and exhibits. Other facilities include a hangar facility for aircraft storage/rework, an exhibit fabrication building, and structures devoted to collections storage and processing.

Air Force

Air Force Armament Museum						
Eglin Air Force Base www.afarmamentmuseum.com/			2	34,000	No	No
The primary mission of the Air Force Armament Museum is to deliver full spectrum support to one of DoD's largest, most dynamic installations by preserving the history of Eglin's armament, equipment, delivery platforms, and people. The Museum provides educational opportunities and accurate information to both the military and civilian communities through interpretive exhibits of graphics/artifacts both past and present.	The Air Force Armament Museum provides an invaluable service to Eglin Air Force Base, the local community, and visiting patrons from the continental U.S. and overseas through education, U.S. Air Force recruiting, and special events. The Museum offers visitors the opportunity to learn and experience these great aircraft and armament artifacts of our military and cultural heritage. In addition to the educational opportunities, the Museum also sponsors over 250 community events each year. Some of these events include military and civilian retirement and promotion ceremonies, various graduation and change of command ceremonies, and numerous other special events. The Museum has built many strong educational partnerships with local schools for scheduled tours, including both high school and college Reserve Officers' Training Corps (ROTC) programs, Okaloosa County Engineers For America, DoD Explosive Ordinance Disposal School, Ground Combat Training School, USAF Special Operations University, NATO International Military Officer Training Program.	The Air Force Armament Museum is a 28 year old facility located outside the base property on 17 acres, which includes two buildings. The main museum (Building 2807) is a two level, HVAC, metal structured building with 28,000 sq. ft. The restoration facility (Building 2803) is a metal storage and wood shop structured facility with approximately 6,000 sq. ft.				

Air Force Space & Missile Museum						
Cape Canaveral Air Force Station www.patrick.af.mil/library/factsheets/factsheet.asp?id=4496			13	37,838	Yes	Yes

Museums						
Purpose and Function	Justification	Description	# of Buildings	Square Feet	National Register	National Historic Landmark
The mission of the Air Force Space & Missile Museum is to collect, preserve, restore, and exhibit items of historical significance which directly relate to the development, heritage, missions, and units associated with U.S. Air Force space launch activities, missile airframes, payloads, related systems development and Cape Canaveral history.	Launch Complex 26 was the launch site of the first U.S. satellite and also the launch site of three primates in support of the early U.S. manned space flight program. The museum was established shortly after the Launch Complex was deactivated (1963) to educate the general public on the important role of the U.S. Air Force in spacecraft and missile systems development.	The Air Force Space & Missile Museum is located at deactivated Launch Complex 26, which includes five associated buildings: Blockhouse, Ready Building, Exhibit Hall, and two launch pad generator buildings. A deactivated spin test complex is also part of the museum and includes four associated buildings: High-Bay, Mid-Bay, Cold Soak Facility, and Quonset Hut. A deactivated Bomarc Launch Facility is used for off-site storage of large artifacts. Three rooms in Hangar H house the Museum's Reference Library and Archives. Hangar R contains 19 restored rockets and missiles; Hangar C contains 2 newly restored rockets/missiles (Thor Able and Atlas F with transporter). A newly renovated 3,242 sq. ft. building opened in August 2010 which is located at the South Gate entrance to Cape Canaveral Air Force Station, and is open to the public. The 13 buildings comprise 34,596 sq. ft. Additionally, a 25 acre outdoor rocket display area is located on the museum grounds.

Fort Stewart Museum		Fort Stewart www.stewart.army.mil/ima/sites/about/history.asp		2	19,000	No	No
<p>The mission of the Fort Stewart Museum is to collect, exhibit and interpret the material culture of the Fort / Camp Stewart Installation and Hunter Army Airfield from 1940 to present. Additionally, the museum will collect, exhibit and interpret the material culture of the Third Infantry Division of the US Army from 1917 to present.</p>	<p>The Fort Stewart Museum provides subject matter expertise on all matters regarding the history of the Hunter / Stewart Installation and the Third Infantry Division. Services are provided to academic researchers, genealogists, state, federal and local government entities as well as the general public. The museum provides a unique venue for ceremonial and social gatherings for individual private as well as command sponsored official functions. The museum provides unique training opportunities to various elements of the Hunter / Stewart community through lectures, museum tours and Staff Ride programs.</p>	<p>Fort Stewart Museum is currently in a state of change and is closed to the public. The building that formerly housed the museum and its collection is slated for demolition. The museum moved out of that building in January of 2013, and is currently maintaining an office in a 5000 square foot facility that was formerly a company orderly room (building 508A). The future gallery will be housed in a masonry building adjacent to 508A and is a former Battalion headquarters building of 14,000 square feet (building 506). This building has a metal, pitched roof and is constructed of CMU block with a brick veneer. It will undergo a complete remodeling upon the availability of funds in either FY 13 or 14. Exhibits will be constructed in FY 14 or 15.</p>					

National Infantry Museum		Fort Benning		3	85,000	No	No
--------------------------	--	--------------	--	---	--------	----	----

Museums						
Purpose and Function	Justification	Description	# of Buildings	Square Feet	National Register	National Historic Landmark
The mission of the National Infantry Museum is to operate as a permanent historical and educational public institution for Fort Benning, Georgia. The museum provides education and training to Soldiers, military dependents, and the general public. The museum focuses on the history of the United States Infantry from its inception in 1775 to the present, the origin and development of Fort Benning, and an overview of the United States Army. A secondary purpose of the museum is to honor the service and sacrifice of all U.S. Infantrymen in protecting and preserving the nation. By collecting and properly documenting artifacts the Museum creates a record that tells the story of the Infantry. The artifacts are used in displays and exhibits to educate soldiers and citizens on the enormous contribution the Infantry has and continues to make in defending our Republic.	The museum is the repository for the material cultural of the US Army Infantry Branch. The museum brings history to life, and it provides a tangible link with historic events that have shaped our republic. The Infantry served in the Revolution, Civil War, World War I, World War II, Korean War, and Vietnam. In the 21st century, the Infantry once more served in the War on Terror. It is important that the museum has artifacts to recall what the Infantry has accomplished in over two centuries service. It is a true link to all those generations that have honorably served our great Nation.	The National Infantry Museum is an integral part of the National Infantry Museum and Soldier Center at Patriot Park. The National Infantry Museum and Soldier Center (NIM-SC) consists of approximately 30.28 acres of land and a 185,993 sq. ft. building situated thereon, which is located between Fort Benning Boulevard and South Lumpkin Road, Columbus, Georgia. The U.S. Army leases space in the NIM-SC from the National Infantry Foundation, Inc., a 501(c)3 non-profit organization. The Army-exclusive space consists of: nine galleries, both era and thematic, that cover the history of the U.S. Infantry from 1898 to the present; an Army Family Gallery, a Fort Benning Gallery, a soon to open History of the U.S. Armor and Cavalry Gallery. Also included in the Army-exclusive space in the basement is 23,512 sq. ft. of historical property, library, and archival storage, historical property processing and office area. On the first floor of the NIM-SC is the Army museum office suite.				

National Armor and Cavalry Museum						
Fort Benning						
The National Armor and Cavalry Museum collects artifacts and archival material that preserves the mounted/armored branch history from the 1700s – present. The museum uses the collection to educate & train U.S. Army Armor Crewmen, Cavalry Troopers, USMC Tankers and other DoD servicemen, on all aspects associated with armored/mounted warfare.	The museum ensures the care & preservation of the armor collection for the future. It collect archival records, documents, pictures & manuals, micro-artifacts of significance to the branch, macro-artifact of historic significance covering all elements of U.S. armor/cavalry combat. The museum conducts research, development, and training. Due to the nature, size & weight of armored vehicles the majority remain outside, exposed to the weather and they deteriorate (inside & outside) from sun & rain exposure; thus vehicle stabilization/ restoration is a critical element of the museum's mission.	The National Armor & Cavalry Museum currently does not have a publicly accessible Museum. Micro-artifacts, archives, weapons & art are stored in the basement of the National Infantry Museum.	2	477,000	Yes	No

U.S. Army Signal Corps Museum						
Fort Gordon www.army.mil/CMH/Museums/links.htm			3	18,904	No	No
The U.S. Army Signal Corps Museum is the responsible steward of the Army's heritage assets specific to the Signal Corps, which include accountability, preservation, and security of 4,000 historical artifacts. In addition, the Museum provides a unique educational venue for Soldiers, their families, and the local community. The Museum also preserves the institutional history of Signal Corps and promotes esprit de corps for current and future generations of Soldiers.	The U.S. Army Signal Corps Museum was established in 1965, and holds the largest collection of communications equipment in the Army Museum System. Because it has representative samples from both the U.S. Army and foreign military forces, the Museum is able to address the complete story of modern military communications. Beginning with the Civil War and continuing into the space age, Museum visitors have an opportunity to view a wide variety of artifacts that include signal flags, radios, photography equipment, and telephones.	The U.S. Army Signal Corps Museum consists of three buildings. The offices, exhibit galleries, and main collections areas are located in Building 29807, Conrad Hall. The Museum also occupies Buildings 39127 and 40115 in Brems Barracks, which are used for collections and workshops. The total square footage is approximately 18,904. Exhibits in the facility are tailored to accommodate both the casual visitor and the technological expert. The Museum features a reference library, traveling exhibits, a gift shop, guided tours, educational programs for military personnel and school children, lectures, daily films, research services, special exhibits, and gallery talks.

Museum of Aviation						
Robins Air Force Base www.museumofaviation.org/			8	271,306	No	No

Museums						
Purpose and Function	Justification	Description	# of Buildings	Square Feet	National Register	National Historic Landmark
<p>The mission of the Museum of Aviation is to portray the history of Robins Air Force Base as part of the heritage of the U.S. Air Force, educate and inspire visitors, and recruit the future work force. As one of only seven aviation museums in the United States accredited by the American Association of Museums, the Museum collects, preserves, and interprets over 4,577 historically and culturally significant artifacts through dynamic, award winning exhibits. The Museum's vision is to become an internationally recognized destination. Nationally recognized hands-on educational programs are used to encourage enthusiasm about learning, inspiring young people to develop an interest in science, aviation, and the U.S. Air Force.</p>	<p>The Museum garnered the public's understanding and support of the roles and missions of the U.S. Air Force, as well as an appreciation of the Air Force's heritage. The Museum was a venue for over 690 special events in FY2013, and allowed visitors to gain an important understanding of the traditions, heritage, and role of the military in today's world. Visitors had unique opportunities to experience military retirements, changes of command, and reunions with our veterans. The Museum's award winning education programs served over 50,000 students from all over the Southeast, providing teachers with unique opportunities to meet national education standards and requirements. In coordination with local colleges and universities, the Museum also provided hands-on training opportunities for future employees of Robins Air Force Base and the aviation industry. Additionally, U.S. Air Force recruiters consistently used the Museum as a successful recruitment tool.</p>	<p>The Museum consists of 174,473 sq. ft. devoted to exhibit galleries and 96,833 sq. ft. for support functions (e.g., collections, storage, research, exhibit, fabrication, and aircraft restoration). These facilities are part of an eight building complex located on a 51 acre campus, featuring a 500 seat outdoor amphitheater and a two acre park with five large covered pavilions and restroom facilities. The Museum's aircraft collection consists of over 80 static display aircraft and over 4,577 historical artifacts that are a part of the National Collection of the U.S. Air Force. The Museum features venues for military and civilian training, world wide conferences, lectures, reference library, gift shop, guided tours, and research services.</p>

Tropic Lightning Museum						
Schofield Barracks	www.army.mil/CMH/Museums/links.htm		1	8,013	Yes	No
The mission of the Tropic Lightning Museum is to collect, preserve, interpret, and exhibit artifacts and related memorabilia which reflect the history of Schofield Barracks, the 25th Infantry Division, and Wheeler Army Airfield.	Tropic Lightning Museum also provides interpretation for Schofield Barracks and Wheeler Army Airfield's National Historical District, Places, and Landmarks. The museum provides support to the 25th Infantry Division including histories, documents, photographs, and consultation of unit Regimental Rooms. Museum provides research facilities and consultation to the Public Affairs Office, researchers, writers, documentary film makers, military, and veterans. Museum is a venue for military ceremonies, civilian tour groups, foreign military liaison groups, and has a conference room for briefings and classes. Museum supports the Command Historian and other directorates in matters of historical importance, preservation, and display.	Museum is located at the center of the National Historic District on Schofield Barracks and occupies a historically significant building constructed in 1915 as the Post's Library. The museum occupies three-quarters of the building, consisting of approximately 5,688 square feet of exhibit space and approximately 2,325 square feet for administrative, storage, and collection/archive use. Exhibit content includes the early history of Schofield Barracks, early history of Wheeler Army Airfield and the attack on Wheeler Army Airfield on 7 DEC 1941, the history of the Hawaiian Division -- the precursor to the 25th Infantry Division, and the combat history of the 25th Infantry Division from WWII up to today's deployments. Exhibit space includes a changing gallery (816 square feet) and conference room (918 square feet). Museum also has a front lawn area with military vehicle displays and event grounds.				

U.S. Army Museum of Hawaii

Collect, preserve, exhibit, and interpret artifacts which reflect the history of the U.S. Army in Hawaii and the Pacific Area, the military history of Hawaii, and the contributions made by Hawaii and Hawaii's citizens to the nation's defense. As an educational institution, the museum will support training and education for military and civilian personnel.	The U.S. Army Museum of Hawaii's exhibits tell the story of the Army in Hawaii and the Pacific area, the military history of Hawaii, and the contributions that Hawaii's citizens have made to national defense. Key exhibits include the military organizations of the Hawaiian monarchy, Coast Artillery in Hawaii, Hawaii's critical role in World War II, Korea, and Vietnam, the Go For Broke Nisei soldiers, the General Shinseki Gallery, and a Gallery of Heroes honoring all citizens of Hawaii who have served in the Armed Forces. Group tours for military and civilians are conducted by appointment. A photo archive of more than 20,000 images is available for reprints. Museum supports the Command Historian and other directorates in matters of historical importance, preservation, and display. The Museum's store offers a large selection of military publications, videotapes, and memento items.	The U.S. Army Museum of Hawaii is housed inside of historic Battery Randolph (38,587 sq. ft.), a coast defense gun battery completed in 1911. The facility is listed on the National Register of Historic Places. Approximate space usage by square footage is as follows: Exhibit galleries (11,000); Administration (450); Collections (3,400); Workshops (1,900); and Store (957). The replication of Battery Randolph's gun parapets in 2010 increased collections storage from 980 sq. ft. to approximately 3,400 square feet, created 800 square foot space for a multi-purpose room, and 1500 square feet space for a future exhibit gallery.

Rock Island Arsenal Museum						
Rock Island Arsenal www.army.mil/CMH/Museums/links.htm			4	68,632	Yes	Yes
<p>The mission of the Rock Island Arsenal Museum is to collect, preserve, and interpret the history of Rock Island Arsenal and Arsenal Island from 1816 to the present. As an educational institution, the museum will support research activities within the arsenal and provide appropriate training and education for its military personnel and the surrounding community. To establish some uniformity throughout the Army Museum System (AMS). It is important that specific elements of the Army's history be collected and interpreted by individual museums. In the case of the Rock Island Arsenal Museum, the primary mission of the museum is to collect, preserve, exhibit, and interpret the history of Rock Island Arsenal with secondary themes related to small arms development.</p>	<p>The Rock Island Arsenal Museum is the second oldest US Army Museum, opened to the public on July 4, 1905. The staff of the Rock Island Arsenal Museum provide VIP and Professional Development tours of the museum facility. In FY13, 39 programs on historical topics were presented to local community groups with 1,723 in attendance. In FY13, a total of 67 adult and school groups with 2,204 individuals visited the museum and/or the installation. Museum staff and volunteers responded to 2,574 official and unofficial requests for information in FY13. A total of 23 volunteers worked 2,306 hours to support museum projects and programs. There are 12,732 artifacts in the collection of the Rock Island Arsenal Museum to include a significant small arms collection and artifacts related to the people, processes, and products of Rock Island Arsenal.</p>	<p>The Rock Island Arsenal Museum and Museum Resource Center occupy the first floor and basement of the east wing of Building 60, one of the Rodman plan stone shops constructed in 1867 and included in the National Register of Historic Places and the National Historic Landmark District. The 10,895 square feet of the museum facility on the first floor includes the exhibit hall, gift shop, theater, duty office, and primary artifact storage. The 10,524 square feet of the resource center in the basement includes museum staff offices, stacks for reference materials, and storage. Additional collection and equipment storage areas, a total of 5,789 square feet, are also located in the basement of Building 60. The arms room, collections storage, and exhibit preparation area, a total of 1,864 square feet, are located in the basement of Building 61. Museum macro artifact storage is located in 5,000 square feet of Building 338, a wood and brick warehouse constructed in the First World War. It is included in the National Register of Historic Places. One acre, approximately 43,560 square feet, is set aside at Memorial Field, as an outdoor display for museum macro artifacts.</p>

Great Lakes Naval Museum						
U.S. Naval Station, Great Lakes www.history.navy.mil/glnm			1	22,378	No	No
As an official Department of the Navy Museum, the Great Lakes Naval Museum's mission is to select, collect, preserve, and interpret the history of the United States Navy with particular emphasis on the Navy's only "boot camp" at Naval Station Great Lakes, Great Lakes, Illinois.	Located at Naval Station Great Lakes, the home of the Navy's only "boot camp", the Great Lakes Naval Museum is the only official Department of the Navy Museum in the Midwest. The museum's exhibits chronicle the "boot camp" training experience, and in particular, the role of women and minorities in the Navy and the contributions they have made.	Building 42 at Naval Station Great Lakes is a historic and architecturally significant building that was designed by prominent architect Gordon Bunshaft in 1942. The Museum consists of one and a half stories which serve as exhibit space, collections storage, and office space for the Museum's two employees. Staff anticipate additional gift by the Great Lakes Naval Museum Foundation in upcoming years to fund the first floor remodel and the fabrication and installation of new permanent exhibits.

Frontier Army Museum Fort Leavenworth www.army.mil/CMH/Museums/links.htm			1	30,000	Yes	Yes
The mission of the Frontier Army Museum is to collect, preserve, manage, research and utilize for educational purposes historically significant property pertaining to the history of the Frontier Army (1804-1917) and Fort Leavenworth (1827-present) including its role in the development of education and technology.	The Frontier Army Museum provides support to the Command and General Staff College, the Department of Military History, the Military History Instructors Course, the Combat Studies Institute and tenant military organizations at Fort Leavenworth.	Located at Fort Leavenworth, Kansas, the museum is housed in a National Register listed buildings. The facility is approximately 30,000 sq. ft. with approximately 75% of the square footage dedicated to exhibit galleries and public areas. The remaining percentage consists of an artifact storage area, staff offices, research library and small fabrication shop. Exhibit galleries highlight the role of the Frontier Army in the Trans-Mississippi West as well as Fort Leavenworth's role in westward expansion, and officer education.

Don F. Pratt Memorial Museum Fort Campbell www.army.mil/CMH/Museums/links.htm			4	14,000	No	No
<p>The mission of the BG Don F. Pratt Museum is to collect, preserve, exhibit, and interpret the history of the 101st Airborne Division (Air Assault), Fort Campbell, its home-based imots (past and present) including the 12th, 14th and 20th Armored Divisions; 11th Airborne Division, 173d Airborne Brigade (Separate), and other units that are, or will be serving at Fort Campbell. In fulfilling this mission, the museum will maintain appropriate research and reference materials and provide programs to educate, train and further an understanding and appreciation of military history as well as enhance morale and esprit de corps.</p>	<p>The museum was established on Fort Campbell, in May of 1956, as a Division Museum for the 101st Airborne Division. The museum was memorialized in honor of the first Assistant Division Commander of the 101st Airborne Division, B.G. Don F. Pratt. Today, many units are honored within the museum, units such as the 12th, 14th, and 20th Armored Divisions, the 11th and 101st Airborne Divisions, the 173rd Airborne Brigade (Separate), the 160th Special Operations Aviation Regiment, the 5th Special Forces Group (Airborne) and many more. Emphasis is placed on the 101st Airborne Division and its units covering the many aspects of its proud history. Reference library and archives, research services, guided tours, historical films, gift shop, gallery talks, lectures, and educational programs.</p>	<p>The museum is now housed in Wickam Hall, a large brown metal building, which was built in the 1960s as a movie theater, classroom and auditorium which was used for basic training during the Vietnam War. Plans have been developed and funding is being raised by the Fort Campbell Historical Foundation to build a much larger Museum Facility on the edge of Fort Campbell which will allow easier visitor access.</p>

Fort Polk Military Historical Holding						
Fort Polk			3	9,000	No	No
The mission of the Fort Polk Museum is to collect, preserve, exhibit, and interpret historically significant property that relates to the history of Fort Polk from 1940 to the present, with emphasis on the principle units stationed at the post and training area. As an educational institution, the museum supports training and education for the military, their dependents and the public at large.	The Fort Polk Museum is the responsible steward of the Army's heritage assets specific to Fort Polk, which includes accountability, preservation, and security of more than 1,002 historical artifacts. In addition, the museum provides a unique educational venue for soldiers, their families, and the local community. The Fort Polk Museum also preserves the institutional history of Fort Polk and promotes esprit de corps for current and future generations of soldiers.	The Fort Polk Museum is located at 7881 Mississippi Ave, Fort Polk, Louisiana 71459, in Building 927. It is housed in a masonry structure, built in 2010, and encompasses 4,472 gsf. The museum had an additional storage building with 4,000 gsf. The museum gallery is approximately 2,261 gsf, and includes vitrines with military artifacts and labels, wall graphics and text, digital picture frames with historical images, and life-like figures of soldiers and a cavalry horse. The grounds have macro-artifact vehicles exhibited at the storage lot and in the garrison's Warrior Memorial Park. The museum includes admin space, a reference library, artifact preparation and storage spaces, and an arms room.

Aberdeen Proving Ground Museum						
Aberdeen Proving Ground			3	35,200	No	No
The mission of the U.S. Army Aberdeen Proving Ground Museum is to collect, preserve, exhibit, and interpret the history of APG, the former Edgewood Arsenal, and the history of Army Communications and Electronics. In fulfilling this mission, the U.S. Army Aberdeen Proving Ground Museum supports the command through military, civilian and community education outreach and the exhibition and interpretation of historical artifacts, and serves as a resource in the research and development of military weapons and defense	Aberdeen Proving Ground has had a significant role in military achievements in scientific, technological and engineering advancements not only in the military application but civilian application since APG opening in 1917. The U.S. Army Aberdeen Proving Ground Museum collects, interprets and exhibits historically significant artifacts related to the Aberdeen Proving Ground installation including but is not limited to the history of APG, the Communications and Electronics Command, and the former Edgewood Arsenal. The APG Museum serves as an educational tool for the military and civilian community as well as the general public and educational institutions.	The museum is located inside the Aberdeen Proving Ground installation on 25 acres. The main museum consists of exhibition hall of approximately 10,000 square feet, an 800 square foot sensitive artifact storage area, 1,000 square feet for a gift shop and 1,000 square feet for a theater. The artifact storage space encompasses two buildings of approximately 20,000 square feet. Building one is approximately 5,000 square feet of artifact storage space and 2,400 square feet of Administrative space. Building two consists of approximately 15,000 square feet of multipurpose storage space. The outdoor portion of the museum currently hold a display of 69 large vehicles that remain at APG after the 2005 BRAC move of the Ordnance Museum to Ft. Lee ,VA.

U.S. Naval Academy Museum						
U.S. Naval Academy, Annapolis www.usna.edu/Museum			2	27,000	Yes	Yes
The mission of the U.S. Naval Academy Museum is to maintain and preserve the physical reminders of the heritage and history of the Naval Academy and its graduates to develop midshipmen as naval officers, educate visitors on the contributions of the U.S. Naval Academy and its graduates to the nation in war and in peace, and to inspire young people to seek a career of service to the nation.	The primary mission of the Museum is to help teach midshipmen and contribute to their intellectual and moral development as naval leaders. The Museum provides programs and services to the midshipmen and faculty, not for the History Department alone, but for many academic disciplines, including the Departments of Leadership, Weapons and Systems Engineering, Oceanography, and English, among others. The new classroom built into the Museum's second deck is currently used full time, five days a week, for academic classes.	The Naval Academy Museum in Preble Hall underwent its first significant rehabilitation in over 45 years, and the main floor galleries reopened in August 2009. The Museum now has a store, and personnel consolidated the Museum's collection storage into one building outside of Preble Hall.

National Cryptologic Museum						
Fort Meade www.nsa.gov/museum/index.cfm			1	18,850	No	No
The National Cryptologic Museum is the National Security Agency's (NSA's) principal gateway to the public. It shares the nation's, as well as NSA's, cryptologic legacy and place in world history. Located adjacent to NSA Headquarters, Fort George G. Meade, Maryland, the Museum houses a collection of thousands of artifacts that collectively serve to sustain the history of the cryptologic profession.	Since antiquity, the art and science of cryptology has played an indispensable role in preserving freedom and liberty. In addition, the making and breaking of codes has always been a critical part of America's efforts to preserve its national security, both in peacetime and in times of war. Through the telling of many interesting cryptologic success stories on exhibit, the National Cryptologic Museum teaches visitors about the discipline's vital importance in the past as well as its role in meeting today's national security challenges.	The National Cryptologic Museum is located in the lone remaining structure of the former Colony 7 Motor Hotel complex, a facility that NSA acquired in the early 1990s. The Museum includes a parking lot on a three acre parcel that lies adjacent to the NSA campus. Despite its proximity to operational areas, the Museum is open to the public.

U.S. Army Engineer Museum						
Fort Leonard Wood www.army.mil/CMH/Museums/links.htm			14	62,000	No	No
The mission of the U.S. Army Engineer Museum is to foster an appreciation for the history and tradition of U.S. Army Engineers, Fort Leonard Wood, and the U.S. Army. This mission is accomplished through the collection, preservation, documentation, exhibitions and educational programs. The museum addresses both the history of Fort Leonard Wood and American military engineering. To accomplish these missions, the museum provides various educational programs and interpretative exhibits in support of the U.S. Army Engineer School and the installation and surrounding communities.	The U.S. Army Engineer Museum is the responsible steward of the Army's heritage assets specific to Army engineering that includes accountability, preservation, and security of more than 11,400 historical artifacts. In addition, the museum provides a unique educational venue for Soldiers, their families, and the local community. The museum also preserves the institutional history of Army engineering and promotes esprit de corps for current and future generations of Soldiers. The Museum provides soldiers educational services to over 15,000 service members annually. The Museum actively collects archival materials through its Veteran's Education and Outreach Program. The Engineer Museum answered over 700 requests for information, many involve providing supporting archival materials for Veteran's seeking VA disability claims.	The Engineer Museum is located within the Maneuver Support Center of Excellence Museum complex. The Engineer Museum has 7,800 sq. ft. of exhibit space, two classrooms, a and a gift shop. The Engineer Museum shares over 80,000 sq. ft. of storage, administrative and shop space with the Chemical and Military Police Museums in the main building. The Museum also includes 12 World War II era building which are NRHP eligible. These 12 buildings compose a company-size World War II mobilization complex and include exhibits on how soldiers lived, ate, worked, and worshiped during training at Fort Leonard Wood during WW2.				
U.S. Army Military Police Corps Regimental Museum						
Fort Leonard Wood			2	12,401	No	No
The mission of the U.S. Army Military Police Corps Regimental Museum is to collect and preserve the material history of the Military Police of the U.S. Army from 1775 to present. The museum also promotes the heritage and traditions of the Military Police branch and the values of the U.S. Army to soldiers and civilians through public exhibits, educational programs, and branch training support.	The museum is the responsible steward of the Army's heritage assets specific to military police operations that includes accountability, preservation, and security of more than 4,441 historical artifacts. In addition, the museum provides a unique educational venue for Soldiers, their families, and the local community. The museum also preserves the institutional history of military police operations and promotes esprit de corps for current and future generations of Soldiers. The MP museum had a visitation of 72,631 during FY2013.	The MP museum occupies a total of 12,021 square feet within the Maneuver Support Center of Excellence (MSCoE) Museum complex consisting of exhibit, storage, office and work space shared with the co-located Chemical and Engineer Museums. The MP Museum also has about 400 square feet in a shared macro-storage space in a separate building. None of the facilities occupied by the MP Museum are included in nor eligible for the National Register of Historic Places.

<p>The mission of the 10th Mountain Division & Fort Drum Museum is to collect and preserve the material history of the 10th Mountain Division and Fort Drum. Using the collected material to present the history of each from its formation to the present with the goal of being honest and accurate as well as establishing esprit de corps in soldiers, their families, civilian personnel, and the local community.</p>	<p>The 10th Mountain Division and Fort Drum Museum is the responsible steward of the Army's heritage assets specific to the 10th Mountain Division and Fort Drum, which includes accountability, preservation, and security of more than 2,500 historical artifacts. In addition, the Museum provides a unique educational venue for Soldiers, their families, and the local community.</p>	<p>The 10th Mountain Division and Fort Drum Museum is located in the post Heritage Center and contains 1,600 sq. ft. of exhibits focused on the history of the Fort Drum and the 10th Mountain Division. The museum is preparing for an overall reworking of the exhibits, bringing the exhibit gallery up to a modern standard.</p>				

Harbor Defense Museum of New York City						
Fort Hamilton, Brooklyn www.army.mil/CMH/Museums/links.htm			2	8,131	Yes	No

Museums						
Purpose and Function	Justification	Description	# of Buildings	Square Feet	National Register	National Historic Landmark
The mission of the Harbor Defense Museum is to serve as the custodian and repository of artifacts pertaining to the history of New York City's harbor defenses, with special emphasis on Fort Hamilton's role. The museum will collect, preserve, manage, exhibit and interpret items relating to this history, and will serve as a primary adjunct to the academic and cultural instruction and military history training of the installation and the community it serves.	The Harbor Defense Museum is the only Army museum in the City of New York. Because there are limited opportunities to provide soldier training on Fort Hamilton, the museum has focused its educational efforts on school programs. To that end the museum has modified its presentations to support the 4th grade curriculum of local schools. Specifically the museum's presentations focus upon the Battle of Brooklyn (27 August 1776), and its relevance to local and national history. At this time more than half of the museum's 19,000 annual visitors can be attributed to school groups. And in many cases, a visit to the museum is the first encounter students have with military history and culture. The museum's staff is committed to ensuring that encounter is a meaningful one.	All of the Harbor Defense Museum's facilities are located in Fort Hamilton's original masonry fort which opened in 1831. The museum itself is housed in the old fort's caponier (Building 230), a freestanding flank battery which is commonly considered the finest example of its kind in the United States. The museum's archives, classrooms, administrative offices and collection storage rooms are located nearby in the main fort (Building 207). For interpretive purposes, the museum also maintains a World War II observation post in Building 207, and "Cannon Walk" a display of historic ordnance near the garrison's main gate.				
Watervliet Arsenal Museum Watervliet Arsenal www.army.mil/CMH/Museums/links.htm			1	30,400	No	Yes
The Watervliet Arsenal Museum serves as an educational institution dedicated to the training and education of soldiers, veterans and the civilian community.	The museum will collect, preserve and exhibit significant objects relating to the history of Watervliet Arsenal from 1813 to the present. The museum will address through its collections, exhibitions and educational programs the impact of the installation on the Army, the surrounding community, arsenal products, the arsenal's place in the history of artillery manufacture, and technological innovations in cannon design and development.	The Watervliet Arsenal Museum is located on the grounds of the Watervliet Arsenal in Watervliet NY. The 19,600 square feet museum building (100' X 196') is the last free standing warehouse building in the USA constructed of Cast Iron. The exhibits include powder horns, cartridge boxes, cannon shot and bullets manufactured during the War of 1812; gun and siege carriages, traveling forge carriages, saddles, knapsacks, shot, shells and accoutrements for firing cannon manufactured during the Civil War; mortars, howitzers, recoilless rifles, and the firepower for the battleships and tanks.

Museums						
Purpose and Function	Justification	Description	# of Buildings	Square Feet	National Register	National Historic Landmark
The mission of the West Point Museum is to collect, preserve, exhibit, and interpret historically significant artifacts pertaining to the United States Military Academy, United States Army and the Profession of Arms. The museum will supplement cadet academic, cultural and military instruction and provide educational programs and services for military and civilian personnel. As a public institution, the museum stimulates interest in the United States Military Academy, the United States Army, and the Military profession.	The West Point Museum is the oldest museum in the U.S. Army. The collection, which also is the largest in the Army Museum System, embraces a comprehensive variety of historically significant properties that are associated with our military heritage. Firearms and edged weapons from both this country and other nations date from the sixteenth century to the present. The collection also includes military flags and colors, along with examples of various types of body armor, uniforms, insignia, medals, and military ordnance. The broad and diverse collections are required for the unique training of the United States Corps of Cadets, who upon graduation from the U.S. Military Academy form the wellspring of new leaders and officers for today's Army. The museum features a reference library, archives, gift shop, educational programs, gallery talks, and lectures.	The Main Museum facility is Building 2110 located at the United States Military Academy, West Point, New York. The building contains 71,590 square feet encompassing eight exhibition galleries, a Soldier/Cadet learning center, Gift Shop, Research library, Conservation lab, six collections storage facilities, a design studio, and administrative office space. The Museum Division, DPTMS at West Point, operates two historic sites: Fort Putnam and Constitution Island. Within the Fort there is an education building for USMA Cadets and the American Public. The building has over 600 square feet of exhibits including a fiber-optic map of the troop movements within the Hudson river valley during America's War for Independence. The Fort covers six acres of land. Constitution Island is located in the middle of the Hudson River and consists of over 282 acres of historic lands used for Cadet training.

82d Airborne Division War Memorial Museum						
Fort Bragg www.army.mil/CMH/Museums/links.htm			2	18,000	No	No
<p>The 82d Airborne Division War Memorial Museum was established in 1945 to collect, preserve, exhibit, and interpret the history of the Division from 1917 to the present. The Museum's primary purpose is to educate (training) by effectively utilizing the museum's collections, art, archives and other sources; to tell the military and civilian communities about the salient aspects of the 82d's history. These artifacts and works of art belong to the people of the United States, and are used to interpret the 82d Division's history for the purpose of military training, education, and research. As a side benefit, the museum fosters morale and esprit de corps and contributes to informing the American people about the 82d Division's service to the nation.</p>	<p>The 82d Airborne Division War Memorial Museum is the responsible steward of the Army's heritage assets specific to 82d Airborne that includes accountability, preservation and security of 4,700 historical artifacts, as required by federal laws. In addition, the museum provides a unique educational venue for Soldiers, their families and the public. The 82d Airborne Division War Memorial Museum also preserves the institutional history of 82d Airborne and promotes esprit de corps for current and future generations of Soldiers.</p>	<p>The museum is located on a 7-acre field that includes a large parade ground and six historic troop carrier aircraft, maintained by the museum. The museum has one museum building C-6841 that is National Register eligible. It has 9,327 square feet of artifact storage and 5,673 square feet of exhibit space. The museum has an additional offsite storage bay of 3,000 square feet for macro artifact storage.</p>

Purpose and Function	Justification	Description	# of Buildings	Square Feet	National Register	National Historic Landmark
Airborne & Special Operations Museum						
Fort Bragg www.army.mil/CMH/Museums/links.htm			1	59,000	No	No
The U.S. Army Airborne and Special Operations Museum serves as the custodian and repository of artifacts pertaining to the history of U.S. Army parachute, glider, and special operations forces, 1940 to the present, including airborne development, Office of Strategic Services (OSS), Rangers, and other special units. The museum will collect, preserve, manage, interpret, and exhibit these artifacts. The museum serves as an adjunct to the local academic and cultural community and will provide military history training to Soldiers and veterans, their families, and to the public at large. The facility brings additional long-term economic benefits to the area and now serves as a downtown landmark and anchors Fayetteville's continuing downtown revitalization program.	Since 2000, the Museum has played a vital role in the civic, educational, and cultural life of Fayetteville, Cumberland County, the state of North Carolina, and the region. Both the military and civilian communities are served by the ASOM. The ASOM provides the community with a facility (the only one dedicated to all Army airborne and special operations units) that offers special exhibits, educational programming, Soldier training, and research opportunities. It also offers airborne and special operations soldiers (past and present) to share their unique world with relatives and friends. Area residents are provided with a museum that focuses on a subject that has been a part of their lives for decades. Schools have a venue for teaching military history that values education. Visitors from all parts of the country, the world, and from all walks of life, are able to experience the history and exploits of the Nation's airborne and special operations.	The ASOM's exhibits, collections, and staff is housed in 59,000 square-foot modern facility constructed in downtown Fayetteville, NC in 2000. The structure is not eligible for inclusion in the National Register of Historic Places. The facility includes two exhibit galleries, a large-screen movie theater, a Full-Motion simulator ride, museum offices, gift shop, collections storage, exhibit construction and other storage areas. The exhibit galleries showcase U.S. Army Airborne and Special Operations artifacts from 1940 to the present.

Air Force

National Museum of the U.S. Air Force (NMUSAF)						
Wright-Patterson Air Force Base www.nationalmuseum.af.mil			15	1,185,451	Yes	No
In accordance with Air Force Mission Directive 29 (AFMD 29), the NMUSAF portrays the history and traditions of the U.S. Air Force through specialized interpretive exhibits and displays of U.S. Air Force historical property, and by operating the U.S. Air Force's national museum. Founded in 1923, the NMUSAF is the world's oldest and largest aviation museum. The NMUSAF is national in both character and operation and has earned global respect and visibility. The NMUSAF holds in stewardship the world-class historical collection of the U.S. Air Force. The NMUSAF also provides professional oversight, guidance, and training for the U.S. Air Force Heritage Program including field activities.	The museum fulfills the Secretary of the Air Force's direction to acquire, preserve, and use material heritage assets of the U.S. Air Force's historical property collection, which is an integral component of the national collection (AFMD 29). The NMUSAF is executive agent on behalf of the Secretary for the management of 10 U.S.C. 2572 for the loan of Air Force Historical Property to authorize governmental and civilian activities. This represents the loan of approximately 2,630 aerospace vehicles and 48,869 artifacts to over 760 qualified organizations worldwide. Additionally, the NMUSAF offers historical services to the Air Force and DoD and also provides a vital cultural adjunct to civilian communities. The NMUSAF curates the Air Force's Historical Collection (135,000+ objects) and facilitates their interpretation to an international audience.	The NMUSAF currently occupies 15 buildings that total 1,185,451 gross square feet, with 790,512 net square feet (NSF) devoted to exhibit galleries; 338,880 NSF to museum support functions (e.g., collection storage, research, exhibit fabrication, and aircraft restoration); and 58,059 NSF to base operations support and utilities functions. These facilities are located on a 450-acre campus, which also features a 7,250-foot runway for the recovery of aircraft delivered to the national collection.

U.S. Army Fires Center Directorate of Museums Fort Sill www.army.mil/CMH/Museums/links.htm			39	154,611	Yes	Yes
<p>The primary mission of the U.S. Army Fires Center of Excellence Directorate of Museums, consisting of the U.S. Army Artillery Museum, the Air Defense Artillery Museum and Fort Sill Museum are to function as a permanent historical and educational institution at Fort Sill, providing training and education for military and civilian personnel, and the general public on all aspects of the history of the Army's Field Artillery, Air Defense Artillery and Fort Sill. Approximately 45% of the collection and exhibitions are devoted to the history of the installation and the surrounding area. Beginning with the period from the 1830s and continuing to the present, visitors have an opportunity to see rare artifacts associated with the settlement of the area and the development of this frontier post. The remaining collection comprises artifacts related to the history and technological development of the Field Artillery and ADA branches and supports professional Branch history and heritage training.</p>	<p>The U.S. Army Fires Center of Excellence Directorate of Museums, consisting of the U.S. Army Artillery Museum, the Air Defense Artillery Museum and Fort Sill Museum are the responsible stewards of the Army's heritage assets specific to Fort Sill and the FA and ADA Branch histories. That includes accountability, preservation, and security of more than 36,000 historical artifacts. In addition, the museum provides a unique educational venue for military students, Soldiers, their families, and the local community. The museum also preserves the institutional history of Fort Sill, the FA and ADA Branches and promotes esprit de corps for current and future generations of Soldiers.</p>	<p>The museums at Fort Sill constitute one of the largest museum campuses in the U.S. Army. Of the 46 historic buildings designated as a National Historic Landmark district, the museum occupies 26 structures where its vast collections are both stored and exhibited. The Museum was established in 1934 in the old Guardhouse. By the 1970s the museum had grown to include several additional buildings, including the old chapel situated in the northeast corner of the quadrangle. A new Field Artillery Museum opened in 2009 and the majority of the ADA collection moved from Fort Bliss in 2010 to temporary storage facilities, awaiting new facility construction.</p>

Naval War College Museum Naval Station, Newport www.usnwc.edu/museum			3	18,792	Yes	Yes
The Naval War College Museum collects, preserves, and interprets historical properties that illustrate: 1) key concepts in the evolution of maritime strategy and naval operations from antiquity to the present, 2) the history of naval activity in the Narragansett Bay region from the colonial period to the present, and 3) the institutional history of the Naval War College since 1884.	The Museum provides mission-related educational program support for Naval War College staff, faculty, and students, as well as exhibition and public programming to inform their families and the public about the Naval War College and the history of the Navy in the Narragansett Bay area.	The Museum building, Founder's Hall, is part of the Naval War College complex. It includes outdoor exhibits on the College grounds, historical displays, and artwork with occasional temporary exhibit loans to museums and galleries in the city of Newport. The main building is a historic three-story stone building built in 1820 by the City of Newport and donated to the Navy by the City and State in 1884 for use as the first Naval War College building. The War College's Mahan Hall and Building 12 on board Naval Station Newport house additional archival and artifact storage.

Army

U.S. Army Basic Combat Training Museum						
Fort Jackson www.army.mil/CMH/Museums/links.htm			3	18,000	No	No
The Basic Combat Training Museum collects, preserves, documents, and interprets artifacts associated with the evolution of U.S. Army Basic Combat Training from 1917 to the present in order to educate, enrich, and for the enjoyment of a broad and diverse audience. The Basic Combat Training Museum displays, lectures, and teaches U.S. Army heritage and traditions to a variety of civilian and military guests.	In accomplishing this mission, the Museum supports the US Army Training Center commander in accomplishing the major organizational mission; supports the training and education of military personnel; provides information and educational services to military personnel and the public; stimulates esprit de corps; develops an appreciation of the Army and Army life among military family members; fosters an appreciation of the Army and its contributions to the Nation among the military and the public.	Building 4440 houses the Museum's administrative offices towards the building's front and additional gallery space towards the rear. The building contains approximately 1,900 square feet. Building 4442 (connects with building 4440) houses approximately 6,000 square feet of gallery area and contains the majority of all museum exhibits and displays. Building 4444 serves as the Museum's primary artifact storage facility; an open breezeway connects this unit to the main Museum (buildings 4440 and 4442). This building contains a segregated artifact storage area (approximately 2,000 square feet); an artifact isolation and processing area (approximately 1,500 square feet); an office/administrative area (approximately 700 square feet) and a dedicated weapons vault (approximately 800 square feet). Until August 2012, building 4408 housed over-sized artifacts and exhibit support items. Between September and November 2012, the US Army Basic Combat Training Museum removed all items for this building and returned "ownership" to the Fort Jackson garrison.

U.S. Army Adjutant General Corps

Fort Jackson	www.army.mil/CMH/Museums/links.htm		2	12,170	No	No
The mission of the Adjutant General's Corps Museum is to collect, preserve, interpret, and exhibit objects that pertain to the history of the Adjutant, the Adjutant General's Department, and the Adjutant General's Corps of the United States Army from 1775 to present. The museum is responsible for the proper use and care of the collection for the purpose of military education, training, and research concerning the history of the Adjutant General's Corps and will serve as the primary adjunct to the academic, cultural, and military training of the history of the Adjutant General's Corps.	The Adjutant General's Corps Museum is the responsible steward of the Army's heritage assets specific to Adjutant General's Corps that includes accountability, preservation, and security of 400 historical artifacts, as required by federal laws. In addition, the museum provides a unique educational venue for Soldiers, their families, and the local community. The Adjutant General's Corps Museum also preserves the institutional history of Adjutant General's Corps and promotes esprit de corps for current and future generations of Soldiers.	The main museum complex is a former post theater that now houses both the AG Corps Museum and the US Army Finance (FI) Corps Museum. The building is a brick structure typical of Army installation movie theaters that were built in the 1960's. The facility totals 9,670 sf and is divided between the two museums. The second facility is a shared storage area (2,500 sf) that is utilized by both the AG and FI Corps Museums. The building is a brick structure that was built in the 1960's. This is a shared facility; the museums storage area is one third of the total structure.				

U.S. Army Chaplain Museum

Fort Jackson	www.army.mil/CMH/Museums/links.htm		1	5,100	No	No
The Mission of the U.S. Army Chaplain Corps Museum is to collect, preserve, document and utilize for research, exhibitions and educational programs, historically significant properties relating to the history of the U.S. Army Chaplain Corps from its inception in 1775 to the present. As an educational institution, the museum will support training and education for military and civilian personnel.	The museum supports the commander in accomplishing the major organizational mission; supports the training and education of military personnel; provides information and educational services to military personnel, Army civilians and the general public; simulates esprit de corps; and develops an appreciation of the Army and its contributions to the nation.	The museum is located within the U.S. Army Chaplain Center and School (USACHCS) at Fort Jackson, SC. The square footage is just over 5,000 sq. ft., consisting of a gallery, artifact storage area, staff office and small reference library. The measurements of the gallery are 3,000 sq. ft.. Artifact Storage is 2,000 sq. ft. and is located just off the gallery. The offices and small reference library are approximately 600 sq. ft. The exhibition content primarily focuses on Chaplain Corps history from 1775 - present day. Being connected to USACHCS allows use of classroom, lab areas and auditorium.

Marine Corps

Parris Island Museum							
Marine Corps Recruit Depot, Parris Island			www.mcrdpi.usmc.mil/units/museum	# of Buildings	Square Feet	National Register	National Historic Landmark
The Parris Island Museum helps the Commanding General execute the Recruit Depot's mission: to recruit and train basic Marines, and ensure the proper management of cultural resources from the installation. The Museum also serves as a liaison to the civilian community and general public.	The Museum supports recruiting and training by presenting U.S. Marine Corps history to potential and new Marines, and provides for the management of cultural resources. It also displays artifacts and art that dramatize the story and history of the U.S. Marine Corps as well as Parris Island and related cultures. Additionally, the Museum sheds light on the development of the Depot and units assigned to it as part of the regional history of Port Royal, South Carolina.	The museum occupies the northern wing of a 1950s-era-two-story brick/marble building and its immediate grounds. Activities include administration, galleries, storage, machinery spaces, and a museum store. A workshop is located nearby. The museum oversees Charlesfort/Santa Elena National Historic Landmark located on Parris Island.	2	23,000	Yes	No

1st Armored Division Old Ironsides Museum						
Fort Bliss			7	161,420	No	No
The mission of the First Armored Division Museum is to preserve, study and interpret the history and material culture of the 1st Armored Division during the period 1940 to the present, with attention to the 7th Cavalry Mechanized Brigade (1933-1939) as it relates to the former. This includes support and operation of the museum facility and implementation of mission-related education and training for assigned military personnel.	The museum is the responsible steward of the Army's heritage assets specific to 1st Armored Division that includes accountability, preservation, and security of more than 5,000 historical artifacts. In addition, the museum provides a unique educational venue for Soldiers, their families, and the local community. The museum also preserves the institutional history of 1st Armored Division and promotes esprit de corps for current and future generations of Soldiers.	Building 1735 hosts the museum's exhibit galleries, auditorium, ceremonial area, staff offices, micro-artifact storage, small arms vaults, archives are 109,416 sq. ft. Warehouses 2321, 2323, 2343, 2333 are 33,860 sq. ft. for macro artifact storage. Bldg. 5847 is 3,026 sq. ft. and is used for general purpose storage. Bldg. 756 is 15,118 sq. ft. and is used for museum exhibits fabrication, exhibit chief office, workshop and supply warehouse.

The mission of the 1st Cavalry Division Museum is to collect, preserve, interpret, exhibit, and educate military personnel and the general public on the history of the 1st Cavalry Division and its subordinate units. As a Divisional Museum, its purpose is to be the central repository for the history and material culture of the 1st Cavalry Division, its brigades and battalions from 1921 to the present. To develop and present educational programming to the active duty, DA Civilians and the general public on the history and traditions of the Division, its brigades, and battalions. The Museum is considered to be a force or combat multiplier for the Division.	The 1st Cavalry Division Museum is the responsible steward of the Army's heritage assets specific to Fort Hood which includes accountability, preservation, and security of more than 3,600 historical artifacts. In addition, the Museum provides a unique educational venue for Soldiers, their families, and the local community. The Museum also preserves the institutional history of 1st Cavalry Division and promotes esprit de corps for current and future generations of Soldiers. The Museum actively collects and preserves both two dimensional and three dimensional materials on the history of the Division in peacetime and at war. The Museum also serves as a center point of family activities for the Division such as	The Museum campus consists of three buildings on approximately ten acres of land in the central Fort Hood cantonment area. The public areas of the Museum are located in two buildings with over 9,000 sq. ft. Building 2218 houses exhibits on the history of the 1st Cavalry Division, administrative offices, artifact storage, an Arms room, and gift shop. Building 2219 houses exhibits on Division operations during the War on Terrorism. Building 2220 serves as the Museum's exhibit workshop, and artifact storage. The Museum facilities include a park with about 125 historical vehicles and 6 Memorials to 1st Cavalry Division operations.				
3rd Cavalry Regiment Museum						
Fort Hood www.army.mil/CMH/Museums/links.htm			4	15,630	No	No
The mission of the 3d Cavalry Museum is to identify, collect, research, preserve, and interpret historically significant properties and maintain them as a usable resource for scholars; to further community relations as well as enhance morale and esprit de corps; to provide a professional facility for the study of the history of the Regiment, and its predecessor, the Regiment of Mounted Riflemen from 1846 to the present; to provide educational services to include programs, classes, exhibits, audiovisuals and publications for use by the 3d Cavalry Regiment, ROTC programs, public schools, and the civilian and military population.	The Third Cavalry Museum has been central to the training of the Soldiers of the Regiment about the unit history, customs, and traditions. These concepts are major building blocks for unit morale and esprit de corps which can be leveraged by the command to increase effectiveness in all the Regiment's activities up to, and including combat. The museum staff has been told by more than one Regimental Commander that they consider the museum to be a combat or force multiplier for the Regiment. The 3d Cavalry has served over fifty of its 167 years in the state of Texas. A major part of its story is also the story of Texas and the museum works	There are also two memorial areas located on the grounds in addition to picnic areas and a gazebo. Building 409 contains an exhibit gallery housing exhibits from 1846 to present day, the curator's office, and primary artifact storage. Building 418 houses a temporary exhibit gallery, admin offices, a research room, archives, and a gift shop operated by the 501c3, 3d U.S. Cavalry Association. Building 419 serves as a classroom and venue for outreach programs. Building 9573 houses the exhibit fabrication shop, artifact and non-artifact storage.

Fort Sam Houston Museum						
Fort Sam Houston	www.army.mil/CMH/Museums/links.htm		3	16,000	Yes	No
The primary mission of the Fort Sam Houston Museum is to provide training to Soldiers through the collection, preservation, interpretation and exhibition of artifacts and other materials related to the history of Fort Sam Houston (including its antecedents) and those activities and events influenced and affected by the organizations, units and personnel of all Services associated with Fort Sam Houston. This includes the facilities and activities at the installation, and the units, individuals and organizations which served here.	Besides 5th Army, now designated Army-North, Fort Sam Houston houses the headquarters for Army-South, Medical Command, Installation Management Command, Army Medical Department Center and School, Brooke Army Medical Center (part of SAMMC), Mission and Installation Contracting Command and Joint Base-San Antonio. The Fort Sam Houston Museum serves to interpret that history, and the units and individuals represented by it, to military personnel serving here and to the civilians from San Antonio, Texas, the U.S. and the world affected by it.	Bldg. 123: Fort Sam Houston Museum, behind Bldgs. 122 and 124; 6,221 sq. ft.; gallery, storage, archives and office; part of the Fort Sam Houston National Historic District. The two dining halls were combined and primarily serves as the museum's exhibit gallery (about 3,000 sq. ft.). Bldg. 56: Macro-Artifact Storage, between Bldg. 16, the Quadrangle and N. New Braunfels Avenue, 5043 sq. ft.; cannon and vehicle storage, part of the Quadrangle National Historic Landmark area, which is part of the Fort Sam Houston National Historic District. Bldg. 4188 (one storeroom): Large Artifact Storage, northwest corner of Bldg. 4188, a large warehouse building, consisting of many storerooms, approximately 6,000 sq. ft. Half of the interior space has been converted to museum storage.

U.S. Air Force Airman Heritage Museum						
Joint Base San Antonio-Lackland			2	11,440	No	No

Museums						
Purpose and Function	Justification	Description	# of Buildings	Square Feet	National Register	National Historic Landmark
<p>The USAF Airman Heritage Museum, established in 1956 to educate and interpret the history of the United States Air Force, collects, researches, preserves, interprets, and presents the United States Air Force (and predecessor organizations) Enlisted Corps history, heritage, and traditions to develop Airmen today...for tomorrow. As the "Gateway to the Air Force" the museum's main focus is on the heritage, roles, and accomplishments of the Air Force Enlisted Airman. The museum is responsible for managing 42 static aircraft displays, over 1,970 historical artifacts, and a research library and archive. Other functions include educational outreach, exhibit development, base heritage development, and conservation and preservation of the Air Force historical property. Museum hours of operation are Monday through Friday from 8:00 a.m. to 4:00 p.m. with extended hours during basic military trainee base leave days to accommodate the influx of visitors.</p>	<p>The USAF Airman Heritage Museum is aligned under the 37 Training Wing (37 TRW) and although no longer supports the 737 Training Group with lectures to more than 29,000 Basic Military Trainees annually, Military Training Instructors schedule lectures and tours for trainees at the museum to enhance the lessons on enlisted heritage. The mission and vision of the USAF Airman Heritage Museum, is to support the illustrious heritage of the enlisted airman and educate new airmen and the public on their roles and accomplishments. The museum is instrumental in preserving the Air Force's legacy and houses an extensive historical aircraft collection that offers airmen in training a first-hand interpretation of U.S. Air Force aerospace development that spans back to World War I. The Airman Heritage Museum's Airpark also serves as a background exhibit during the weekly U.S. Air Force Airman Graduation Ceremony. Since 1947, The U.S. Air Force has graduated nearly 7 million Airmen at Joint Base San Antonio-Lackland.</p>	<p>The museum is housed in a modified World War II-era wooden structure with 8,940 square feet. Exhibits consist of wall murals, a World War I aircraft fuselage, uniforms, and equipment cases. The building also provides staff offices, artifact storage, and workshop. The Museum's 42 historical static display aircraft collection is divided into three large outdoor parks, each representing different eras in the Air Force history. Additionally, the museum shares a 4,000 sf artifact storage facility at Lackland Annex, with the USAF Security Forces Museum.</p>				
U.S. Air Force Security Forces Museum						
Joint Base San Antonio-Lackland			2	11,510	No	No

Museums						
Purpose and Function	Justification	Description	# of Buildings	Square Feet	National Register	National Historic Landmark
The USAF Security Forces Museum collects, preserves, interprets, and exhibits the history and heritage of the Air Force Security Forces from inception as Air Police in 1947, through the change to Security Police during the Vietnam Era, and into present day contingency missions as Security Forces. Through dynamic displays and a research center, the Museum currently exhibits and interprets 1,600 unique artifacts and over 3,000 archival documents and photographs pertinent to Security Forces culture and history. Since 1979, the Museum has expanded from 2,700 square feet to 11,510 square feet of space which includes an educational classroom/auditorium for various courses, events, ceremonies, and artifact storage. The Museum is open to all active duty, reserve, and retired military and to the general public. Museum hours of operation are Monday through Friday from 8:00 a.m. to 4:00 p.m. with extended hours during basic military trainee base leave days to accommodate the influx of visitors.	The USAF Security Forces Museum is currently aligned under the 37 Training Wing (37 TRW) and supports the 37 Training Group/343 Training Squadron (37 TRG/343TRS) by providing classroom and briefing rooms to accommodate over 5,000 officer and enlisted Security Forces students annually. The 343 TRS is the home of the Security Forces 65-Day Apprentice and 78-Day Officer Courses. Further, the museum provides a setting for official events and ceremonies by the Air Force Security Forces Center, headquartered at Joint Base San Antonio-Lackland. The museum also serves as the central archives for all aspects of historical Security Forces archival matters and is utilized by the public, military students, publishers, researchers, public affairs, and retirees.	The Museum is housed in a renovated World War II-era structure with a two-story addition that dates to the 1980s. This structure is comprised of 5,200 sf of exhibit space, 3,260 sf of administrative, historical object storage, and reference library space and 1,050 sf of auditorium/classroom space. The exhibits interpret significant events and operations in the career field from the beginning of the Air Force in 1947 to the current day. The building also contains staff offices, a records room, artifact and archival collections storage. Additionally, the Museum shares a 4,000 sf artifact storage facility at Lackland Annex, with the Airmen Heritage Museum.

Hill Aerospace Museum						
Hill Air Force Base http://www.hill.af.mil/library/museum/			6	142,978	No	No
<p>The Mission of the Hill Aerospace Museum is to portray the history of Hill Air Force Base and the Ogden Air Logistics Complex and its tenant and related organizations, as well as the history of Utah Aviation, through the collection, preservation, and presentation of historically and culturally significant artifacts and related materials. Objectives include: providing a unique learning environment that inspires visitors of all ages to learn more about the history and missions of the U.S. Air Force and Hill Air Force Base; to be a place of pride for all Airmen and inspiration to future Airmen; and strengthen the ties between Hill AFB and its surrounding communities. The Museum has become a source of great pride for the Hill Air Force Base community as well as a "must see" destination for the State of Utah. A well-established entity, the Museum will also play a key role in "anchoring" the Enhanced Use Lease program on the North end of Hill Air Force base.</p>	<p>The Hill Aerospace Museum is the responsible steward of over 4,000 Air Force artifacts. It serves as the face of the U.S. Air Force to the people of the Inter-mountain West and beyond by preserving and presenting the stories of Air Force men and women to a large and increasingly diverse audience through innovative exhibits and displays as well as docent and self-guided tours. The Museum provides a unique environment for hundreds of special ceremonies each year that honors those who serve our nation and allows the public to observe important military functions such as retirements, pin-ones, and changes of command. The result is an increased pride in Military Service members and a renewed sense of patriotism.</p>	<p>The Museum consists of six buildings and two enclosed walkways totaling 140,503 sq. ft. and is located on a 34.4 acre parcel of land at the North end of Hill Air Force Base. The Museum also has a 2,475 sq. ft. restoration hangar at the Ogden Airport. The primary facility consists of three display buildings joined by two enclosed walkways totaling approximately 124,030 sq. ft. The next largest facility, Building 1919, is the Museum's 11,878 sq. ft. restoration space. Buildings 1961 and 1962, WWII-era Barracks and Chapel, measure 1,250 sq. ft. and 3,793 sq. ft., respectively.</p>

National Museum of the U.S. Army						
Fort Belvoir www.armyhistory.org			1	0	No	No
<p>The National Museum of the U.S. Army will be a permanent historical and educational institution and a world-class national military museum housed in an exceptional venue and possessing an extensive collection of artifacts, archives, and art. The new Museum will display the best of the U.S. Army's extensive collections. Through its education and public outreach efforts, the Museum will serve and support the Nation, the Army's installations and its Soldiers, and forge relationships with the community, veterans, other museums, supporting organizations, and government bodies at all levels.</p>	<p>The National Museum of the U.S. Army will be the responsible steward of the Army's heritage assets specific to the overall Department of the Army, which includes accountability, preservation, and security of thousands of historical artifacts. In addition, the Museum will provide a unique educational venue for Soldiers, their families, and the local community. The Museum will also preserve the institutional history of the overall Department of the Army, promote esprit de corps for current and future generations of Soldiers, and provide the Army with a venue to forge close connections with the general public.</p>	<p>The new museum complex is being designed to support approximately 185,500 sq. ft. of internal spaces on 41 acres for support of the Museum and outdoor educational activities adjacent to the Fairfax County Parkway. Phasing is required due to incremental project construction funding. Offices for the Project Office staff are in a temporary building at Fort Belvoir.</p>				

U.S. Army Corps of Engineers Museum						
Fort Belvoir, Humphreys Engineer Center			2	3,516	No	No

Museums						
Purpose and Function	Justification	Description	# of Buildings	Square Feet	National Register	National Historic Landmark
U.S. Army Corps of Engineers Museum's mission is to collect, document, interpret, and preserve the history and heritage of the U.S. Army Corps of Engineers. The Corps of Engineers Museum preserves the history and objects associated with these missions that would otherwise be lost due to their uniqueness. The museum provides interpretation and education of this unique aspect of Army history to its own community.	The U.S. Army Corps of Engineers was initially created during the Revolutionary War, but it did not become a permanent institution until 1802. It is an organization with a proud record of service to the nation since its establishment, providing vital military engineering, civil engineering, water resource management, navigation, environmental stewardship, flood mitigation, and disaster response services to the nation. Much of the Corps' work is unique to it, and is not duplicated in any other Army organization.	Museum consists of a storage building of 3,200 square feet located at the Humphreys Engineer Center in Alexandria, VA. Building is modern and non historic, and is divided into collection storage and work and office area. There is an additional 216 square feet plus 5 cases for exhibits located at the U.S. Army Corps of Engineers Headquarters, Government Accountability Office building, 441 G St., Washington D.C.				
U.S. Army Quartermaster Museum Fort Lee www.army.mil/CMH/Museums/links.htm			4	34,540	No	No
The mission of the U.S. Army Quartermaster Museum is to collect, preserve, exhibit and interpret historically significant property related to the history of the Quartermaster Corps from 1775 to the present.	The museum traces its origins to 1954, when a collection of historical uniforms, mostly reproductions was acquired by the Enlisted Supply Department of the Quartermaster School, for the teaching of the evolution of military uniforms. By 1956 the collection and scope of activity had expanded with the addition of items from the Test and Development Activity so that a building was dedicated and named the Quartermaster Museum. The museum serves the Quartermaster Center and School as a classroom for the teaching of history. Over 16,000 Soldiers, non-commissioned officers, warrant officers, and officers a year receive instruction in the museum.	In 1963, a museum facility was constructed with funds raised by the Quartermaster Memorial Corporation, later U.S. Army Quartermaster Foundation. The museum consists of 4 buildings: (1) Main Building (25,000 sf) which contains main storyline exhibits, the Pieklik Research and Learning Center, and administrative staff offices. (2) Exhibits Workshop (3,140 sf). (3) Artifact Storage Facility (2,400 sf) for large vehicle/artifact storage. (4) Non-artifact Storage (1,500). A new (4,000 sf) multi-purpose addition will be complete by Summer, 2013.				
U.S. Army Women's Museum Fort Lee www.army.mil/CMH/Museums/links.htm			1	15,000	No	No

Museums						
Purpose and Function	Justification	Description	# of Buildings	Square Feet	National Register	National Historic Landmark
The museum serves as an educational institution, providing military history training and instruction to soldiers, veterans and the civilian community. The museum is the custodian and repository of artifacts and archival materials pertaining to the service of women across all branches and organizations of the US Army from inception to present day. The museum collects, preserves, manages, interprets and exhibits these unique artifacts as a means to provide training and educational outreach.	It is the only one of its kind in the US Armed Forces. It's archival and artifact collection is critical to an understanding of the history of the contributions of women to the Army and is not replicated in any other institution. Additionally, in absence of a dedicated historian to the history of Army women, the museum provides subject-matter expertise to TRADOC and Department of the Army.	The museum gallery space is 5000 sq. ft., with an additional 1,500 sq. ft. set for artifact and archival storage. There is 1,300 sq. ft. of work space for exhibit building and 500 sq. ft. for storage of materials. In addition there are 2 large classrooms/theaters at 650 sq. ft. each. Finally, there are 4 working offices for a total of 500 sq. ft. No parts of the museum are eligible to be included in the National Register of Historic Places. The gallery area is organized chronologically and has exhibits representing the history of Army women from 1775 to present.				
U.S. Army Ordnance Museum Fort Lee www.ordmusfound.org			21	70,000	No	No
The mission of the Ordnance Training and Heritage Center is to collect, preserve, account for, and display historically significant property that relates to the history of the US Army Ordnance Corps and the evolution and development of American Military Ordnance materiel from the colonial period to the present.	The Ordnance Training and Heritage Center has the unique responsibility of not only representing the history of the Ordnance Corps, but of the evolution and development of ordnance. Using macro and micro artifacts throughout the Ordnance Campus, Soldierization is capitalized. Over 200 years of history and tradition is celebrated and preserved through the Ordnance Training and Heritage Center.	Currently the museum does not have a facility dedicated to the museum. The museum is housed in temporary structures or facilities on the demo list.

Museums						
Purpose and Function	Justification	Description	# of Buildings	Square Feet	National Register	National Historic Landmark
The mission of the U.S. Army Transportation Museum is to collect, preserve, and interpret historically significant properties related to the history of U.S. Army transportation and the evolution and development of American military transportation systems from the colonial period to the present. In fulfilling this mission, the Army Transportation Museum assists in research, supports military training and education through exhibition and interpretation of artifacts, and conducts educational programs associated with the museum's mission.	The U.S. Army Transportation Museum is the responsible steward of the Army's heritage assets specific to U.S. Army transportation that includes accountability, preservation, and security of more than 6,973 historical artifacts. In addition, the museum provides a unique educational venue for Soldiers, their families, and the local community. The museum also preserves the institutional history of U.S. Army transportation and promotes esprit de corps for current and future generations of Soldiers.	The museum originally was located in an abandoned storage building and opened to the public in 1959. It moved to its current facility in 1976. The entire museum encompasses six acres of ground. It consists of the main museum building. It also includes overhead pavilions for outdoor thematic exhibits on aviation, ground transport and rail. Museum facilities include, galleries, auditorium, artifact storage, exhibit workshop, archival storage, research library, offices, foundation offices, lobby, mini-theater. The outside displays are thematic and include new signage for every artifact on display. The auditorium has recently been renovated and serves as a classroom and room for events and ceremonies. The 2,640sf artifact storage area is a two story storage area with processing area, permanent and temporary storage, as well as conservation area.

Museums						
Purpose and Function	Justification	Description	# of Buildings	Square Feet	National Register	National Historic Landmark
The Hampton Roads Naval Museum interprets the history of the U.S. Navy in and around Hampton Roads, Virginia from the Revolutionary War to the present day. The Museum performs this mission through collections, research, preservation, and interpretation of historic artifacts.	The Museum preserves, interprets, and maintains the history and heritage of the U.S. Navy in the Hampton Roads region, the largest Fleet concentration area on the east coast of the U.S., for the inspiration and education of active duty and reserve naval personnel, their families, veterans, future Sailors, the general public, and future generations of Americans. The American Alliance of Museums accredited the Hampton Roads Naval Museum in December 2008, an impressive accomplishment achieved by only 4% of all Federal museums.	The Museum consists of exhibit and office space located within the National Maritime Center (NAUTICUS) as well as partial space in two warehouse/office buildings on Naval Station Norfolk used for artifact processing, storage, and records. The Museum uses additional meeting, educational, and theater space in the 150,000 sq. ft. NAUTICUS structure. The City of Norfolk provides the Museum with space, utilities, parking, and security in NAUTICUS without charge. Artifact and archival storage is provided in Buildings H9 and IAA on board Naval Station Norfolk.

Museums						
Purpose and Function	Justification	Description	# of Buildings	Square Feet	National Register	National Historic Landmark
The National Museum of the Marine Corps preserves and exhibits the material history of the U.S. Marine Corps; honors the commitment, accomplishments, and sacrifices of Marines; supports the recruitment, training, education, and retention of Marines; and provides the public with a venue for the exploration of U.S. Marine Corps history. The Museum collects and provides stewardship for objects; interprets history through exhibitions, publications, and programs; conducts research; and develops and delivers educational programs. The Museum also contributes to recruitment, education, and retention of Marines by inspiring visitors and providing education opportunities.	The National Museum of the Marine Corps contributes to recruitment, training, education, and retention of Marines, and provides the general public with a greater understanding of the history of this Military Service within the context of world affairs.	The 118,000 sq. ft. National Museum of the Marine Corps opened to the public in early FY2007. The balance of its space is located in ten other buildings on MCB Quantico, ranging widely in quality, age, condition, and size. These buildings provide housing for collections not on exhibit, office and work space for most of the staff, limited exhibit fabrication capabilities, and restoration activities. Additionally, the art collection is housed off-Base in a rental climate-controlled storage facility (8,000 sq. ft.). Three additional galleries opened to the public in June 2010. The grounds includes a chapel, playground, and Semper Fidelis Memorial Park.

Fort Lewis Military Museum Fort Lewis www.army.mil/CMH/Museums/links.htm			1	35,000	Yes	No
<p>To collect, preserve, display, and interpret historical artifacts pertinent to the history of Camp Lewis, Fort Lewis and the Army component of Joint Base Lewis-McChord, the units which have served here, and the role of the U.S. Army in the exploration, development and defense of the Pacific Northwest. The classrooms on the once vacant third floor of the museum fill a critical training gap which once existed at JBLM and are used primarily for language training for Soldiers deploying overseas and for company commander and first sergeant courses.</p>	<p>The museum has expanded its footprint to encompass ten galleries with over 250 exhibits in approximately 15,000 square feet of exhibit space. The museum staff conducted 47 tours, briefings and conferences, provided reproduction uniform and exhibit support to six unit ceremonies or post ethnic observance events, supported eight unit staff rides/professional development courses, responded to 299 research requests or inquires, provided historic information or materials to support five local newspaper articles and one televised news story and managed and maintained six satellite museum heritage centers in the 1 Corps HQ, JBLM HQ, Visitors Center, Welcome Center, CG Quarters and Hawk Education Center.</p>	<p>The museum activity is housed in the historic Red Shield Inn. It is one of two surviving historically significant buildings on JBLM from World War I era. It was placed on National Register of Historic Places on 5 February 1979 and was highlighted before Congress in 2005 as an example of the Army's good use and stewardship of historic structures. The building was given a top-to-bottom renovation, which brought the building to a modern condition and reutilized the once derelict third floor as a world class training center which features 15 classrooms and office and storage space for the training cadre. Overall the building is approximately 46,000 square feet and has three floors, a mezzanine level and a partial basement. The museum occupies the first floor, mezzanine, second floor, basement and controls six rooms on the third floor. The first floor is predominately exhibit space, approximately 10,000 square feet. The mezzanine level, approximately 5,000 square feet. The second floor contains office space and administrative space. The third floor hosts the museum's archives, TM library and research library. The museum also features approximately an acre of outdoor static displays which features 42 armored and soft skinned vehicles and artillery pieces.</p>

Navy Museums Northwest						
Naval Base Kitsap, Silverdale and Puget Sound Naval Shipyard, Bremerton www.history.navy.mil/museums/psnm/psnm.htm ; www.history.navy.mil/museums/keyport/			2	91,000	Yes	No
Navy Museums Northwest collects, preserves, and interprets specific themes of naval heritage on a national and regional basis for the benefit of the U.S. Navy and the people of the United States. It also provides consolidated management, personnel, and financial support and services for the Museum's two units: the Naval Undersea Museum at Naval Base Kitsap in Keyport, and the Puget Sound Navy Museum in Bremerton.	The Naval Undersea Museum is the primary national organization, military or civilian, that collects, preserves, and interprets the undersea heritage of the U.S. Navy. It performs the following core functions: 1) interprets naval undersea heritage for active duty military members and the general public; 2) ensures the survival and preservation of significant undersea material and equipment. The Museum is accredited by the American Association of Museums. The Puget Sound Navy Museum interprets the history and operations of the U.S. Navy in the Pacific Northwest. It performs the following core functions: 1) records and displays the naval heritage in a four-state region; 2) preserves and interprets naval shipyard history with an emphasis on Puget Sound Naval Shipyard. Both museums support U.S. Navy core values, inspire Sailors to individual achievement; and transmit naval pride and traditions from one generation to the next. Puget Sound Naval Museum was accredited during 2013	The Naval Undersea Museum is located in Keyport on U.S. Navy property outside the main gate of the Naval Undersea Warfare Center. Purpose-built as a museum with funds raised by the Naval Undersea Museum Foundation, the building has three floors and a basement. The modern, well-maintained building includes 23,000 sq. ft. of exhibit space, 20,000 sq. ft. of artifact storage, and a 450-seat auditorium, as well as smaller areas for two classrooms, a lobby, a library, restrooms, a museum store, and staff offices. The Puget Sound Navy Museum is located on city property in Bremerton, adjacent to Puget Sound Naval Shipyard and the Washington State ferry terminal. The structure, which was the original 1896 administration building for the shipyard, is owned by the City of Bremerton. The building, extensively renovated in 2006-2007, has two floors of exhibit space and artifact storage in the basement. The Navy has a dollar-a-year lease for the building, and the City of Bremerton pays for utilities and exterior maintenance.

Fort McCoy Historical Holding						
Fort McCoy www.mccoy.army.mil/FactsSheets/index.asp?id=comarea			8	23,805	No	No
<p>The mission of the Fort McCoy History Center/Commemorative Area is to collect, identify, preserve, study, and interpret artifacts relating to the establishment and history of Fort McCoy since the beginning of the 20th century. The center will serve as a cultural adjunct to the military and civilian community and constitutes a resource for training, education, research, and community relations support.</p>	<p>To preserve and present the material history of Fort McCoy for the benefit of the soldier and the community.</p>	<p>The Fort McCoy Commemorative Area consists of eight buildings. One building serves as the History Center depicting Fort McCoy's History from 1909 to present day. One building is a WWII Dining Facility as is set-up as such. One building is a WWII Barracks building that is set up like a barracks along with a WWII Chapel and Day Room Display. Another building is a WWII Admin building and setup as such. Two additional WWII Barracks buildings are set up with displays; one is a logistics display and the other has four field training displays (winter, forest, desert, and forward operating base). A small building is used for administration and artifact storage. The last building is used for non-artifact storage and public affairs products. All buildings are WWII temporary wood buildings built in 1942.</p>

Air Force

Warren Intercontinental Ballistic Missile (ICBM) & Heritage Museum		F.E. Warren Air Force Base www.pawnee.com/fewmuseum		3	14,804	yes	No
<p>The mission of the Warren ICBM & Heritage Museum is to collect, preserve, exhibit, and interpret historical and cultural materials related to the ICBM program of the U.S. Air Force, and to collect, preserve, exhibit, and interpret materials related to the history of F. E. Warren Air Force Base and its predecessors (Fort F. E. Warren, Cheyenne Quartermaster Depot, and Fort D. A. Russell). The Museum has a very active outreach program to reach the people in the surrounding areas of Wyoming, Colorado, and Nebraska. The Museum has a rather robust and wide ranging Outreach effort due to the lack of accessibility by the public to the base.</p>	<p>The significance of F. E. Warren Air Force Base and the U.S. Air Force ICBM program is demonstrated through the preservation and exhibit of historic materials interpreted for the Air Force community and general public.</p>	<p>Museum moved to its new location in Building 31 (6200 sq. ft.) in June 2013. Built in 1887, this historic building at one time served as the second Post hospital and makes a wonderful venue to showcase artifacts in the FE Warren AFB's vast collection. Museum's primary storage is in historic Building 329 (8460 sq. ft.), built in 1908 and the only horse stable remaining on base in is original condition. Both of these historic structures are listed on the National Register of Historic Places. Building 1470 (144 sq. ft.), the former archives storage facility for the 90th Civil Engineers, serves as the second Museum storage area.</p>

2d Cavalry Regiment-Reed Museum Vilseck			3	6,500	No	No
To collect preserve, exhibit, and interpret historically significant objects related to the history of the 2D Regiment of Dragoons from 1836 to present. The museum will provide educational programs and services for a variety of military and civilian audiences, as well as enhance morale and esprit de corps for members of the Regiment.	The Reed museum represents the US Army's history in Europe. It also serves as a tool for the 2nd Cavalry Regiment to train Soldiers on their unit's history, act as a front door to the Regiment and U.S. Army as many local national and partnership foreign military's only exposure to the U.S. Army is through the museum facility and staff.	The museum currently occupies three separate spaces: Bldg. 342: this is the museum facility that contains the gallery, office space, and soon collection storage. Bldg. 712: this facility provides the arms room requirement needed to house the museums historic collection that is not on exhibit. Bldg. 377: the museum has one bay in this motorpool building that is used for storing several macro artifacts and other large items that require indoor storage.				
U.S. Army Europe (USAREUR) Historical Holding Tompkins Barracks, Heidelberg			3	1,500	No	No

Museums						
Purpose and Function	Justification	Description	# of Buildings	Square Feet	National Register	National Historic Landmark
The mission of the USAREUR Historical Holding is to collect, preserve, exhibit, and interpret those materials and artifacts that are an integral part of the history and tradition of the Army's European operations. The mission also includes providing assistance and guidance on all historical property, to include over 150 macro vehicles and equipment throughout USAREUR as required by the Center of Military History.	The USAREUR Historical Holding is affiliated with USAREUR Headquarters and supports various historical and educational programs throughout USAREUR. It serves as a repository for USAREUR's historical artifacts, develops exhibitions and provides guidance on and assists with historical property accountability and disposition as well as the preservation of all historical property throughout USAREUR.	The USAREUR Historical Holding is comprised of 3 areas. 1) a collections holding area approximately 800 square feet located at McCully Barracks in Wackernheim, Germany, 2) office space approximately 500 sq. feet located in building 1016 on Clay Kaserne in Wiesbaden Germany, 3) exhibition/interpretive space in the Shalikashvili Mission Control Center located on Clay Kaserne in Wiesbaden. At present, the USAREUR HH holding is responsible for 7 small exhibit areas in the MCC. In the next FY that area of responsibility will expand to a 1000 sq. foot gallery.

Camp Red Cloud	www.army.mil/CMH/Museums/links.htm		2	34,500	No	No

Museums						
Purpose and Function	Justification	Description	# of Buildings	Square Feet	National Register	National Historic Landmark
The Mission of the 2nd Infantry Division Museum is to collect, preserve, and interpret historically significant artifacts related to the 2nd Infantry Division from 1917 to the present. As an educational institution, the 2nd Infantry Division Museum will support training and education through exhibits, publications, programs, and outreach activities for military and civilian personnel. The Museum links the past to the present by using examples of the Warrior Spirit and Army transformations as recurring themes to assist in the Division's mission and tell the Indianhead Division story. The 2nd Infantry Division Museum has assumed a secondary mission of interpreting the U.S. Army experience on the Korean Peninsula. The 2nd Infantry Division Museum currently displays a collection of artifacts and historic photos relating to the Division's history since its formation during WWI, through today's Warriors guarding Freedom's Frontier. The Museum also instills in every new Soldier here on the Korean Peninsula the understanding that they are still in a very real world wartime situation and that by utilizing history ensures that the Division's Warriors know how real the danger is and that at a moment's notice they may be called upon to "Fight Tonight" alongside their KATUSA and Republic of Korea Allies.	The 2nd Infantry Division Museum conducts VIP orientation tours which include the Commanding General USFK, Commanding General Eighth Army, The Chief of Mission US Embassy and numerous local officials including the Mayors of Uijeongbu, Dongduchon and Pyongtaek. The Museum has also conducted a Division Senior Leader Staff Ride for the Commanding General, BDE and BN Commanders and General Staff and Command Sergeants Major to the Task Force Smith battlefield. The 2ID Museum also has worked with the 2nd Infantry division G-9 and Area I Community Relations, to provide tours for over 30 local schools, including elementary, secondary and college students. In addition it provided support to numerous 2ID and Area I Local Chapel Groups and various English Camps throughout Uijeongbu, Dongduchon and Paju. The Museum is currently preparing for the 60th Anniversary of the Armistice ending the Korean War. This includes providing support for tours of veterans who visit throughout the year. These veterans include US Veterans as well as multinational Veterans from those UN member countries who fought in the Korean War. The Museum conducts Oral Histories with the 2ID War Veterans, ensuring the saving of their stories to teach and train today's Soldiers.	The Museum consists of two permanent buildings. The museum's buildings and grounds are U.S. Army property and are assigned for use by the Directorate of Public Works based on the mission, need, and justification of the museum's functions, and the availability and suitability of the structure.

Appendix B

FY 2013 Funding for Military Museums

Appendix B contains a breakdown of each military museum's funding totals for FY 2013. The analysis follows budgetary categories:

DoD Appropriations

Secretaries of the Military Departments dispense appropriated funds within their respective Military Services for their museum programs. The museum programs under the auspices of the National Museum of Health and Medicine and the National Security Agency, respectively, receive appropriations under similar but separate mechanisms from the Military Services. DoD receives appropriated funding for museums primarily through O&M, Military Personnel, Military Construction, and Procurement Appropriations.

Non-Appropriated Fund Instrumentalities

Pay of personnel or cost of any service or maintenance provided through the collection of fees by the government under the auspices of the Non-Appropriated Fund Instrumentalities rules.

Total Federal

Sum of all DoD Appropriations and Non-Appropriated Funds.

Other Sources

Funds provided by private support organizations or other donations outside the federal government in support of the museum.

Grand Total

The sum of all of the above categories.

Total	87	\$ 20,351,560	\$ 43,294,621	\$ 63,646,181	\$23,255,644	\$ 4,203,791	\$ -	\$ 656,143	\$ 91,761,759	\$ 6,816,124	\$ 98,577,883

* The facilities cost information in this report is a combination of modeled sustainment data based on square footage and building category, estimated costs, and actual expenditures. Modeled costs are derived from a standardized model for forecasting facilities sustainment resource requirements, and are thus likely to be significantly greater than actual expenditures. Pending the designation of a common reporting standard for museum facilities, these values should be used with care, and should not be compared with other cost categories that report actual spending.

Appendix C

FY 2013 Management Structure for Military Museums

Appendix C contains information regarding the management of military museums. This includes information on each military museum's management structure, staff numbers, and staff roles. Employees at military museums include both civilian and Armed Forces personnel in full-time and part-time positions.

Although management varies between museums, most museums have a director or a qualified curator in charge of daily management of the museum's collections and holdings including accessioning and deaccessioning policies and procedures. Support staff can include museum and archival specialists, assistant curators, historians, and restorationists/conservationists, and administration posts. Support staff assist with museum operations, including developing the museum's operational budget, accessioning and deaccessioning collections and objects, developing educational programs, and managing personnel.

Air Force

National Museum of the United States Air Force				
Wright-Patterson Air Force Base www.nationalmuseum.af.mil				
<p>Management Structure: The National Museum of the U.S. Air Force is a direct reporting unit of Headquarters Air Force Materiel Command. A Board of Directors appointed by the Secretary of the U.S. Air Force provides oversight, governance, supervision of strategic planning and execution, review of progress, and support for major issues. The Director of Air Force History and Museums Policies and Programs provides technical, historical, and policy guidance to the Museum Director. The Museum Director's immediate supervisor is the Executive Director, Air Force Materiel Command. The Museum Director forecasts, develops, and justifies resources including budget, manpower, facilities, and acquisitions.</p>				
<p>Employee Roles: The National Museum of the U.S. Air Force employs 96 full-time staff members. The Museum Director provides planning, policy, technical, and administrative supervision to a workforce of 96 full time Federal employees and 535 volunteers through ten division chiefs. The areas of responsibility of the division chiefs include plans and programs, management support, special events, public affairs, operations, restoration, education, exhibits, research, and collection management. Beyond the National Museum, the Museum Director also provides technical and professional guidance to more than 760 military and civilian organizations around the world, which hold approximately 2,630 aerospace vehicles and nearly 50,000 artifacts on loan from the National Museum. The directed workforce includes museum professionals such as curators, collection managers, archivists, researchers, conservation and restoration specialists, and education and exhibits personnel.</p>	96	0	0	0

Appendix D

FY 2013 Additional Information on Military Museums

Appendix D contains additional information on DoD museums, including visitor and volunteer numbers, and partnerships with non-DoD entities and museum affiliations.

The purpose of military museums cannot be described without referencing the role museums play in U.S. troop education and training programs. Military museums support DoD mission objectives by enhancing military training and readiness. Many military museums are located on or near mission training installations and DoD educational facilities, offering Armed Service personnel hands-on access to historical artifacts and records. DoD museums provide unique opportunities, education, and history for the benefit of DoD personnel, their families, and the public.

U.S. Army Yuma Proving Ground Heritage Center
 Yuma Proving Ground www.yuma.army.mil/garrison/sites/directorates/ptms.asp

<p>Educational Affiliations: The museum's educational programs support the Installation's organizations, tenant activities, the civilian workforce, and contracted personnel. This begins with a presentation during the newcomer orientation given to all employees (e.g. Department of the Army employees, civilian contractors and active duty service members). Additionally, the collection is used to educate the employees. At times the collection is used by R&D personnel to determine former best practices as it relates to material used during testing. At times the collection is used to research or assist with active test & evaluation activities at the Proving Ground. Museum educational programming also supports training needs of organizations (e.g. NCOCP, Special Classes related to acquisition reform (e.g. training provided to the MICC) as well as special training provided to the workforce (e.g. safety awareness week). Museum tours and presentations are often given to visiting delegations, both DoD and / or friendly foreign nation support in order to teach those visitors about YPG's historic contributions.</p> <p>Non-DoD Entity: The museum has a formal partnership with the Arizona Western College and the Northern Arizona University-Yuma Campus for the enhancement of STEM related activities, in particular as regards a Grant to AWC/NAU for recruiting and educating underrepresented students in the Yuma area for STEM related disciplines and fields of practice. The museum serves as an informal educational destination for students in the region interested in STEM related fields of practice as they may relate to the applied science activities of the Yuma Proving Ground. We have established relationships with the 4th Avenue Junior High School for support of Holocaust related materials and presentations. We have established a relationship with Woodard Junior High School in support of bringing STEM related activities to underrepresented students. We have a working relationship with the Gifted Program of Yuma Elementary District #1 for STEM related activities. The Director is a member of the STEM Advisory Council of the STEM Arizona Education Collaborative. The museum has a partnership with the City of Yuma, the Yuma Crossing National Heritage Area and the Yuma Quartermaster Depot State Historic Park in an effort to tell the long history of the Army in Yuma.</p>	<p>Yuma Elementary District #1; Arizona Western College; Northern Arizona University; Senior Mission Command; Army Test and Evaluation Command</p>	<p>City of Yuma; Yuma Crossing National Heritage Area; Yuma Quartermaster Depot State Historic Park; 4th Avenue Junior High School; Gifted Program of Yuma Elementary District #1; STEM Advisory Council of the STEM Arizona Education Collaborative</p>	<p>23,232</p>	<p>0</p>	<p>35</p>

Air Mobility Command Museum						
Dover Air Force Base http://amcmuseum.org/						
<p>Educational Affiliations: The Air Mobility Command Museum provides heritage training to airmen leadership classes and half day training tours to Reserve Officers' Training Corps (ROTC) and Junior ROTC classes throughout the Delmarva Peninsula. The Museum also provides specialized training opportunities for the Security Forces Squadron working dog section, the Office of Special Investigation, the Dover Air Force Base Fire Department, local fire departments and National Guard Disaster Response Teams. The Museum offers specific subject training for Squadrons upon request and teaches a class fulfilling all requirements for the Aviation Merit Badge for Boy Scouts. The Museum operates a summer aviation camp program for middle school students and provides a comprehensive aviation seminar to all gifted and talented students in the Wicomico County School System. It gives all students in the Wesley College Historical Professions program a behind the scenes encounter, providing the Museum with interns and the students with a hands on experience. The Museum also hosts an ongoing lecture series on aviation history.</p>		<p>10 J/ROTC classes throughout the Delmarva Peninsula, Security Forces Squadron working dog section, Office of Special Investigation, Dover Air Force Base Fire Department, five middle school aviation summer camps, Delaware Technical and Community College, Wesley College Historical Professions Program, Wicomico County Gifted and Talented Program</p>	<p>Small Museum Association, Delaware Museum Association, Kent County Tourism Corporation, Central Delaware Chamber of Commerce, AMC Museum Foundation, Boy Scouts</p>	75,000	3	150

<p>Education Affiliations: The Museum of Aviation is both a regional educational institution and a resource for educators and students. The Museum's Education Center offers innovative programs and partnerships to teach science, technology, engineering, and math (STEM) and aviation history and USAF heritage. Programs include Middle Georgia Youth Science and Technology Center, which increases interest in STEM in schools; STARBASE Robins, which provides real-world applications of STEM through simulations and experiments; Mission Quest, which uses state-of-the-art flight and air traffic control simulators to apply STEM principles; Aviation Connections and Experiments (ACE), which facilitates student participation in science-based hands-on activities; and Wonder Wings, a Pre-K educational program that focuses on the basic parts of an airplane. The Museum hosts the only National Aeronautics and Space Administration (NASA) Teacher Resource Center in the State of Georgia. In fiscal year 2013, 60,128 students received hands-on learning through Museum programs. The museum has formal partnerships with eight public school districts (Bibb, Crawford, Dooly, Houston, Peach, Twiggs, Jones, and Bleckley counties). Central Georgia Technical College's aircraft sheet metal class is located at the museum. The museum also partners with South Georgia Technical College, Middle Georgia State College, Georgia Institute of Technology, Mercer University, and the Air Force Association (AFA) Aerospace Education Foundation.</p> <p>Non-DoD Entities: The Museum has a partnership with the Museum of Aviation Foundation, Inc., a private organization sanctioned in accordance with Air Force Instruction 34-223 which augments mission requirements with additional resources, as available. Those resources are under the authority and direction of the Museum Foundation President & Chief Operating Officer (COO). A signed Memorandum of Understanding delineates the partnership agreement between the Museum Director, the Museum Foundation President & Museum COO, and the 78th Air Base Wing Commander. The Museum of Aviation Foundation is also responsible for funding the construction of additional facilities. Air Force						
Barksdale Global Power Museum						
Barksdale Air Force Base http://aeroweb.brooklyn.cuny.edu/museums/la/ea/m.htm						
<p>Educational Affiliations: The Barksdale Global Power Museum provides an educational venue and resources for local organizations such as Starbase Barksdale, which teaches at-risk 4th through 6th grade students about aerodynamics, aeronautics, and aviation history. The Museum also provides numerous tours for First Term Airmen Course participants, Airman Leadership School students, high school level Junior Reserve Officers' Training Corps (JROTC), Civil Air Patrol, and school groups (grades K-12) from around the three state Ark-La-Tex (Arkansas, Louisiana, Texas) region. The Museum has developed a working affiliation with Southern University-Shreveport and their Aviation Department to use Museum aircraft restoration opportunities through their course curriculum. The Barksdale Global Power Museum also developed a working affiliation with Louisiana State University-Shreveport and other universities around the region. These institutions provide interns with the opportunity to work in Museum management areas such as collections management and library science. These interns are part of the college military history programs, which help students learn about the inner workings of preserving military material history.</p> <p>Non-DoD Entities: The Museum has a partnership with the Barksdale Global Power Museum Association, Inc.</p>		Starbase Barksdale, First Term Airmen, Airman Leadership School, JROTC, Civil Air Patrol, Aviation Department of Southern University-Shreveport, Centenary College of Louisiana in Shreveport, Louisiana Tech University-Ruston, and Northwestern State University of Louisiana-Natchitoches	Barksdale Global Power Museum Association, Inc.	15,129	0	25

National Cryptologic Museum						
Fort Meade www.nsa.gov/museum/index.cfm						
<p>Educational Affiliations: The National Cryptologic Museum provides a wide range of interactive and age-appropriate educational programs that introduce students to the historical, scientific, and technical aspects of cryptology. A separate program meets the needs of home school families with children of varying ages by encouraging team work as well as independent research. The Museum also provides a parent-led activity for families to entertain and educate them as well as prompt family interaction, communication, and discovery. For older students and adults, the Museum staff and volunteer docents provide guided tours of the Museum's exhibits. Staff also provide a variety of lectures on cryptologic topics to universities and local community organizations. In addition, the Museum partners with the National Security Agency's (NSA's) Math Education Partnership Program to arrange talks on mathematical topics for students in grades K-12 from local schools.</p> <p>Non-DoD Entities: None</p>		NSA's Math Education Partnership Program	None	62,388	0	12

White Sands Missile Range Historical Holding							
White Sands Missile Range www.army.mil/CMH/Museums/links.htm							
<p>Educational Affiliations: The museum has an extensive policy of public outreach to all groups. This is done through guided tours, school visits and education materials for teachers and students, and lectures to civic organizations. The museum also collaborates with local STEM programs up to the university level. The museum does not have the traditional role of teaching soldiers on base because of the post and its mission, but does offer tours to military on post who are interested.</p> <p>Non-DoD Entities: The museum has no formal partnerships, however, it is informally engaged with the schools districts of Las Cruces, Deming, and Alamogordo, New Mexico and El Paso, Texas, as well as New Mexico State University and University of Texas at El Paso. The museum has also been approached by, and conducted programs for, local Rotary and Lions Club groups.</p>		<p>Schools districts of: Las Cruces, Deming, and Alamogordo, New Mexico and El Paso, Texas; New Mexico State University; University of Texas at El Paso</p>		<p>Local Rotary and Lions Club groups</p>	<p>92,480</p>	<p>0</p>	<p>8</p>

Harbor Defense Museum of New York City Fort Hamilton, Brooklyn www.army.mil/CMH/Museums/links.htm						
<p>Educational Affiliations: Over 11,000 students from schools throughout the metropolitan area participated in the museum's tour program in FY13. These programs focus upon the Battle of Brooklyn during the Revolutionary War and the development of New York City's harbor defenses, but can be tailored to a specific topic at the teacher's request. In the area of soldier education the museum conducts training exercises ranging from trial-rides to in-house lectures. For more than a decade the museum has also hosted "Military History Cinema Night," which is open to soldiers and civilians alike.</p> <p>Non-DoD Entities: Partnership for New York City Public Schools is maintained through the United Federation of Teachers (UFT). The success of the museum's school program is largely attributable to periodic advertising in the UFT's newsletter. The museum also maintains informal partnerships with numerous local non-public schools such as The Seeall Academy, Beth Jacob of Boro Park School, Yeshiva Tiferes, Bais Yaakov and Bnos Margulia. NY Military Affairs Symposium. The museum is also a member of The Museums Council of New York City and the Bay Ridge Arts and Cultural Alliance.</p>	30 local school groups	The Seeall Academy, Beth Jacob of Boro Park School, Yeshiva Tiferes, Bais Yaakov and Bnos Margulia, NY Military Affairs Symposium, Museums Council of New York City, Bay Ridge Arts and Cultural Alliance	19,500	0	17

National Museum of the United States Air Force (NMUSAF)						
Wright-Patterson Air Force Base www.nationalmuseum.af.mil						
<p>Educational Affiliations: The NMUSAF Education Division partners with the University of Dayton, Hocking College, Civil Air Patrol, the National Science Teachers Association, 217 public and private schools, and over 163 youth organizations. In 2013, the NMUSAF had over 135,000 educational encounters with teachers, students, youth groups, families and adults who participated in nearly 1,000 education programs. These multi-disciplinary "hands-on, minds-on" programs allow students to explore history, science, technology, engineering and mathematics through aerospace topics. Nearly 13,300 adults also participated in a variety of public tours such as the daily U.S. Air Force Heritage Tour, weekly Behind the Scenes tours of the Restoration Division, programs, and professional development seminars for teachers.</p>		<p>The University of Dayton, Hocking College, Civil Air Patrol, National Teachers Association, 217 public school and private schools representing multiple states, over 163 youth organizations</p>	AFMF	1,015,210	3	545

Fort Sam Houston Museum
Fort Sam Houston www.army.mil/CMH/Museums/links.htm
<p>Educational Affiliations: As a post museum, the Fort Sam Houston Museum does not have a formal affiliation with a unit or school, as a unit or branch museum would have. Instead, the Museum offers various types of training, such as Fort Sam Houston historical overview, all levels of soldier professional development, and technical and unit-specific training. Such training has also been utilized by AMEDD Center and School instructors and USAF units stationed on the post. The Museum also serves as a resource for local schools associated with the Army under the Mentorship Program, including teachers' in-service training. The University of San Antonio's history and architecture departments use the Museum for research, independent studies and internships. Annually, the Museum is a venue on the San Antonio Conservation Society's History Heritage Tours, offered city-wide to 4th grade classes, with approximately 200 to 400 students attending sessions on "what soldiers do".</p> <p>Non-DoD Entities: Preservation Fort Sam Houston, San Antonio Conservation Society; University of Texas San Antonio</p>

Air Force

U.S. Air Force Airman Heritage Museum					
Joint Base San Antonio- Lackland					
<p>Educational Affiliations: Although the USAF Airman Heritage Museum no longer provides formal training to the Air Force Basic Military Trainees, Military Training Instructors schedule lectures and tours for trainees at the Museum to enhance the lesson on enlisted heritage. Other tenant training organizations at Joint Base San Antonio-Lackland (e.g. Defense Language Institute, Inter-American Air Forces Academy, NCO Academy, and 59th Medical Wing) also tour the museum as part of their training courses. Other visitorship consists of members of the Public, Military, Junior/Reserve Officer's Training Corps (JROTC and AFROTC groups), and various veteran private organizations. The 324th Training Squadron supports the Museum with regularly scheduled detail airmen who assist the Field Museum Director with museum visitors, exhibit demonstrations as well as office duties and exhibit maintenance assistance.</p> <p>Non-DoD Entities: The Airman Heritage Museum is supported by the Lackland Gateway Heritage Foundation, Inc. The Foundation has a Board that approves and provides financial support to the Museum. The legal basis for the foundation is outlined in Memorandum of Understanding (MOU) between the Foundation, the 502 ABW, and the 37th Training Wing.</p>	<p>Lackland AFB Basic Military Trainees, Airman Leadership School, NCO Academy, Defense Language School</p>	<p>Lackland Gateway Heritage Foundation, Inc.</p>	<p>70,947</p>	<p>0</p>	<p>113</p>

U.S. Air Force Security Forces Museum
 Joint Base San Antonio- Lackland
http://afsf.lackland.af.mil/Heritage/History/heritage_museum.htm

<p>Educational Affiliations: The USAF Security Forces Museum serves as a classroom setting for thousands of students that attend the 343rd Training Squadron Security Forces Academy. The Museum inculcates the history and heritage of the Security Forces career field to enlisted and officer students as an integral part of the curriculum and provides an interactive classroom setting for an average of over 5,000 students annually. Other tenant training organizations at Lackland (Defense Language Institute, Inter-American Air Forces Academy) also tour the Museum as part of their training courses. Other visitorship consists of members of the Public, Military, ROTC & JROTC groups, and various veteran private organizations such as the Security Forces Association who regularly tour the Museum as part of their meeting/reunion experience. The 324th Training Squadron and the 343rd Training Squadron support the Museum with regularly scheduled detail airmen who assist the Field Museum Director with Museum Visitors, exhibit demonstrations as well as office duties and exhibit maintenance.</p> <p>Non-DoD Entities: The U.S. Air Force Security Forces Museum is supported by the Security Forces Museum Foundation. The Foundation has a Board that approves and provides financial support to the Museum. The legal basis for the foundation is outlined in an Memorandum of Agreement (MOA) between the Foundation, the 502 ABW, Headquarters, Air Force Security Forces Agency and the 37th Training Wing.</p>	343rd Training Squadron's Security Forces Academy, Inter-American Air Forces Academy, Defense Language School	Security Forces Museum Foundation	14,323	0	237

Hill Aerospace Museum						
Hill Air Force Base www.hill.af.mil/museum						
<p>Education Affiliations: In fiscal year 2013, the Hill Aerospace Museum continued its partnerships with local schools and universities by hosting teacher workshop programs and Museum Studies interns. In conjunction with the Museum Foundation and the Rocky Mountain Space Consortium, 14 interns and teachers from local high schools and universities manned the Museum's Aerospace Center for Education (ACE), providing educational interpretation to over 95,000 students. These students range in age from pre-school to the university level. During the fall and winter months, the Museum's Plane Talk lecture series hosts local and national speakers on Saturdays that are open to the public. The Museum and its supporting heritage foundation also partnered with the Business Management Department at Weber State University in an attempt to create and expand current and non-existing marketing efforts through plans created by students.</p> <p>Non-DoD Entities: The Museum's primary non-DoD partnership is with the Aerospace Heritage Foundation of Utah, a private non-profit organization founded in 1982 that is sanctioned in accordance with Air Force Instruction 34-223. The mission of the Foundation is to provide capital support for the Museum for facility improvement and expansion, and for those projects for which U.S. Air Force funding is not available. The Museum's educational mission is also supported by the Utah Chapter of the Air Force Association, Rocky Mountain Space Consortium, and other donors.</p>		<p>Davis County School District, Weber County School District, Utah Board of Education, Weber State University, Utah State University, Ogden-Weber Applied Technology College, Salt Lake Community College</p>	<p>Aerospace Heritage Foundation of Utah, Air Force Association (Utah Chapter), Rocky Mountain Space Consortium, Utah Aviation Hall of Fame</p>	148,000	0	85

Warren Intercontinental Ballistic Missile (ICBM) & Heritage Museum F.E. Warren Air Force Base www.pawnee.com/fewmuseum					
<p>Educational Affiliations: The Warren ICBM and Heritage Museum has an extensive outreach program for people in surrounding communities in Wyoming, Colorado, and Nebraska, and its website is listed on all tourism websites in the state. The Museum offers historical presentations with hands-on educational boxes and traveling flat exhibits to schools with students in grades Kindergarten through college, as well as other organizations. The Museum also established a historic audio tour of F. E. Warren Air Force Base which allows visitors to use their cell phones to experience personal tours of the Museum and the Base. Family tours, which were not previously supported by Public Affairs, are also now available on the Base. The Museum created a "Junior Missleer" program for young people to learn about the science of rockets and missiles. It also established a partnership with the Wyoming National Aeronautics and Space Administration (NASA) Grant Consortium, which allows the Museum to participate in activities with five junior colleges, one four year university, and high schools throughout Wyoming. The Museum also partners with a regional group, Tracks Across Wyoming, which follows Interstate 80 through Wyoming and recognizes historical and educational sites.</p>	<p>Museum has multiple educational affiliations and collaboration with First Term Airmen at F.E. Army

2nd Infantry Division Museum						
Camp Red Cloud www.army.mil/CMH/Museums/links.htm						
<p>Educational Affiliations: The Museum is partnered with DoD elementary, middle, and secondary schools in Osan, Daegu, Camp Humphreys and Camp Casey where the museum uses its resources and knowledge to instill a sense of pride in being a Military Child as well as opening up the 4000 year old Korean Culture to the young minds of American children. The Museum continues its introduction to US Soldiers of the Korean culture as it conducts thrice weekly tours for incoming 2ID Soldiers. The museum conducts weekly tours to new KATUSAs which introduce them to their unique American Military heritage and the history of the Division which has been a part of their country's history for almost 60 years. The Museum staff also supports and conducts between 10 to 15 staff rides annually by providing OPDs and NCOs for over 10 BN sized units within the Division, Area I and USFK.</p> <p>Non-DoD Entities: The Museum is also partnered with over 30 elementary, middle and secondary schools in Korea, Kungnam University as well as local English Language Camps in Paju, Dongduchon and Uijeongbu which strengthens our two cultures partnership and friendship in the next generation of Local Nationals. The Museum works closely with our Korean Allies through formal partnerships with numerous ROKA ROTC programs, the Korean Military Academy, ROKA Chaplains School and the Korean Command and General Staff College.</p>		DoD elementary, middle, and secondary schools in Osan, Daegu, Camp Humphreys and Camp Casey; incoming 2ID Soldiers, KATUSAs; 10 BN-sized units within 2ID Division, Area I and USFK	Korean National War Museum, The Seoul National Museum, The National Museum of Korea, the Jeongok Prehistory Museum, American Alliance of Museums, and the Gyeonggi Province Historical Foundation.	26,867	0	3
