

IRP- and MMRP-related Trainings
Online and In-Person Training

Program Area: (Installation Restoration Program (IRP) or Military Munitions Response Program (MMRP))	Course Title/ID	Date of Course/Location	Sponsor Organization	Weblink	Course Description	Length of Course	Cost	Audience	Test (Y/N)	Certificate (Y/N)
IRP	Various	Ongoing/Virtual and In-Person (where applicable)	Naval Civil Engineer Corps Officers School Environmental Training	Naval Civil Engineer Corps Officers School Environmental Training (osd.mil)	These online trainings include topics related to compliance, conservation, and management.	Various	Specific cost information can be found on the Weblink.	Military Active duty or a civil service employees.	Y	Y
IRP	High-Resolution Site Characterization (HRSC) Training	Ongoing/In Person	EPA	https://www.clu-in.org/characterization/technologies/hrsc/hrsctraining.cfm	Specialized training course for groundwater HRSC.	Two and a half days	No tuition	Registered Guests	N	Y
IRP	RemPlex: Subsurface Sensing: Advancing Electrical Geophysical Techniques for Non-Invasive Characterization and Monitoring at Complex Sites	June 3, 2025 (Virtual)	Center for the Remediation of Complex Sites (RemPlex)	RemPlex Seminars PNNL	Application of geophysical techniques for understanding, characterizing and monitoring complex remediation sites, with a special focus on the Spectral Induced Polarization (SIP) method.	Hour and a half	N/A	Registered Guests	N	N
MMRP	3Rs Training	July 9, 2025 (Virtual in CST)	Army Environmental Command	N/A. Please reach out to Nathaniel Garza for weblink access.	This comprehensive training program focuses on integrating the principles of 3Rs (Recognize, Retreat, and Report) Explosives Safety Education into the Military Munitions Response Program (MMRP) project lifecycle. Participants will gain practical insights into embedding 3Rs across various project phases, starting from the Remedial Investigation Phase. During the Feasibility Study, emphasis will be placed on developing alternatives that incorporate 3Rs principles and effectively presenting these in the Record of Decision (ROD). Strategies for messaging 3Rs in public forums such as Restoration Advisory Board (RAB) meetings and the Proposed Plan will be explored in depth. Participants will learn how to outline the selected remedy with 3Rs in the ROD and integrate that into the Land Use Control Implementation Plan. Additionally, the course will highlight the significance of understanding your audience and provide a walkthrough of relevant resources available on the 3Rs website.	Four hours	No Cost.	DoD, FLM, EPA, and State Regulator Environmental Cleanup personnel.	Y	Y

MMRP	Interstate Technology and Regulatory Council (ITRC) Geophysical Classification for Munitions Response Technical	Technical guidance document	August 2015	http://www.itrcweb.org/gcmr-2	Technical and regulatory guidance for the application of geophysical classification using advanced sensors for munitions response projects.	ITRC
MMRP	Geophysical Classification for Munitions Response Regulatory Fact Sheets	Fact Sheet	October 2014	http://itrcweb.org/Documents/Team-Resources-GCMR/ITRC-GCMR-Team-Regulatory-Fact-Sheet-Final-10-10-2014.pdf	Provides basic information about geophysical classification for munitions response. Explains what geophysical classification is, benefits and limitations, and the information and data regulators need to monitor and evaluate usages.	ITRC
			June 2013	http://itrcweb.org/Documents/Team-Resources-GCMR/ITRC-MR-technical-fact-sheet-June-2013-FINAL.pdf	An overview of advanced classification technology that identifies which organizations are working on advanced classification and their contact information. Provides details on the geophysical classification technology and process, the types of terrestrial sites where this technology may be applicable, and data quality considerations.	
			October 2012	http://www.itrcweb.org/GuidanceDocuments/GCMR-1.pdf	Provides basic information about geophysical classification for munitions response including background information, existing technology, advances in technology, and ongoing technology demonstrations.	
IRP	Acronyms and Glossary Taken from Final Draft of Army's Remedial Investigation/Feasibility Study (RI/FS) Guidance	PDF	May 2009	Military Munitions Support Services Acronyms and Glossary (clu-in.org)	Acronyms/glossary of the Army's Final MMRP RI/FS Guidance.	Army
MMRP	Survey of Munitions Response Technologies	Report	June 2006	http://www.clu-in.org/download/remed/Survey_of_Munitions_Response_Technologies.pdf	An overview of technologies used for munitions response actions that evaluates and quantifies their performance capabilities. Provides project managers and regulators with an understanding of the performance capabilities of available technologies under real-world site conditions. It discusses observations and critical considerations in the application of munitions technologies, with particular emphasis on detection technologies.	ESTCP/ITRC/SE RDP
