MMRP	3Rs Training	July 9, 2025 (Virtual in CST)	Army Environmental Command	N/A. Please reach out to Nathaniel Garza for weblink access.	This comprehensive training program focuses on integrating the principles of 3Rs (Recognize, Retreat, and Report) Explosives Safety Education into the Military Munitions Response Program (MMRP) project lifecycle. Participants will gain practical insights into embedding 3Rs across various project phases, starting from the Remedial Investigation Phase. During the Feasibility Study, emphasis will be placed on developing alternatives that incorporate 3Rs principles and effectively presenting these in the Record of Decision (ROD). Strategies for messaging 3Rs in public forums such as Restoration Advisory Board (RAB) meetings and the Proposed Plan will be explored in depth. Participants will learn how to outline the selected remedy with 3Rs in the ROD and integrate that into the Land Use Control Implementation Plan. Additionally, the course will highlight the significance of understanding your audience and provide a walkthrough of relevant resources available on the 3Rs website.	Four hours	No Cost.	DoD, FLM, EPA, and State Regulator Environmental Cleanup personnel.	Y	Y
