

Injury cases are identified by specific International Classification of Disease (ICD-9-CM) codes and Department of Labor Nature of Injury (NOI) codes. The codes listed here were selected and validated by the DoD Ergonomics Working Group.

### Potential Ergonomics-Related ICD-9 Codes

Code	Condition
353.0	Brachial plexus lesions
354	Mononeuritis of upper limb and mononeuritis multiplex
355	Mononeuritis of lower limb
443.0	Raynaud's syndrome (VWF)
715	Osteoarthritis and allied disorders
717	Internal derangement of knee
720	Ankylosing spondylitis and other inflammatory spondylopathies
721	Spondylosis and allied disorders
722	Intervertebral disc disorders
723	Other disorders of cervical region
724	Other and unspecified disorders of back
726	Peripheral enthesopathies and allied syndromes
727	Other disorders of synovium, tendon, and bursa
728.4	Laxity of ligament (game-keeper's thumb)
729	Other disorders of soft tissues

840-848

Sprains and strains of joints and adjacent muscles
