

DoD Ergonomics Working Group NEWS

Issue 91, April 2009

www.ergoworkinggroup.org

Attendees at the 24-25 March 2009 DoD Track of the Applied Ergonomics Conference heard expert presentations on how the department achieves its ergonomics goals through comprehensive risk assessments, innovative equipment design, ergonomic interventions, and collaborative installation program development.

These presentations are now available to you for downloading!

Go to www.ergoworkinggroup.org and follow the link on the home page to access these full conference presentations, listed alphabetically by author:
