

THE GREEN BOOK

Environmental Guidebook for Military Golf Courses

Military symbology
for attack strategies

produced by

Center for Resource Management
Golf & the Environment Initiative

funding provided by

Department of Defense
Legacy Resource Management Program

ACKNOWLEDGMENTS

The development of this guidebook has involved the expertise and contributions of a number of individuals and organizations. Much of the early work in developing the ideas, concepts, and formats that found their way into the guidebook came from a demonstration project conducted at the Lakeside Golf Course at Fort Benning, Georgia. Superintendent Ray Meredith was a willing participant in exploring and experimenting with a variety of projects and different approaches and contributed his time and expertise throughout the effort. Jeff Carlson, golf course superintendent, consultant, and President of Wildside Consulting was invaluable in providing advice and guidance at all stages of the project. At the Center for Resource Management, Nancy Nelson handled all of the production work and as always kept things organized and on track. Patrick Parker, Lumasion Media, provided the creative graphic print design services.

Many thanks go to all the military golf course superintendents and golf managers who gave of their time, expertise, and advice through personal interviews, site visits, and written surveys. Their opinions and input were extremely valuable. Lastly we must acknowledge and thank the Department of Defense, Legacy Resource Management Program for the support and funding to undertake and complete this project.

Paul Parker

Executive Vice President
Center for Resource Management

Table of Contents

CHAPTER 1

About the Environmental Guidebook

- Project Background
- Organization and Use of the Guidebook

CHAPTER 2

Why Making Environmental Improvements to Your Course Makes Sense

- Possible Cost Savings
- Recognition and Support for the Course and Management Team
- Recognition and Support from Educated Players
- Improved Wildlife Habitat and Water Quality
- Stay ahead of Regulatory Requirements

CHAPTER 3

How to Improve the Environmental Stewardship of Your Course: Developing an Environmental Plan

- Developing greater awareness and commitment to environmental stewardship concepts and principles
 - Step One: Read the “*Environmental Principles for Golf Courses in the United States*” and commit to follow these principles in the management of your course
 - Step Two: Identify sources of information and assistance.
 - Step Three: Organize an environmental advisory committee
- Environmental Planning Process
 - Step One: Collect and review existing military installation plans for wildlife, water quality, forestry, pest management, etc.

- Step Two: Baseline assessment and site analysis
 - Activity One- Site Analysis
 - Activity Two- Golf Course Map
 - Activity Three- Environmental Baseline Assessment Checklist
 - Activity Four- Player Attitude Survey
- Step Three: Develop specific program strategies
 1. Environmental Planning and Management Philosophy
 2. Safety, Training and Awareness
 3. Pollution Prevention
 4. Plant Protection and Nutrition
 5. Wildlife Management
 6. Water Usage
 7. Conservation and Waste Management
 8. Outreach and Education
- Step Four: Prioritize actions and improvement strategies and complete a phasing schedule
- Step Five: Plan Implementation - monitor and record results
- Step Six: Evaluate and adjust goals, plans and strategies
- Summary Report of Stewardship Actions

CHAPTER 4

Environmental Certification for Military Golf Courses

- Certification Process
- “Green Star” Certification Criteria

CHAPTER 5

Coordinating With Other Military Resources, Plans and Personnel

- Develop an Understanding of the Golf Course Within the Larger Context
- Develop an Awareness and Understanding of Installation Plans and Programs That Could Affect Course Maintenance
- Coordination Principles and Practices

CHAPTER 6

Connecting With Non-Military Environmental Stewardship Efforts

- Benefits of Connecting with other Efforts
- Non-Military Golf Environmental Stewardship Efforts
- Regulatory and Other Government Programs that Relate to Golf Course Environmental Stewardship

APPENDICES

- A. *Environmental Principles for Golf Courses in the United States*
- B. Sources of Information
- C. Player Survey
- D. *Environmental Desk Reference: Guide to Significant Environmental Laws and Regulations Affecting Golf Courses (GCSAA)*
- E. Application for Environmental Stewardship Certification
- F. GCSAA Continuing Education Credits
- G. GCSAA/Golf Digest “Environmental Leaders in Golf Awards”
- H. GEM Baseline Assessment Checklist, Air Force Center for Environmental Excellence
- I. Golf Course Map and Resource Overlay Transparencies
- J. Site Analysis forms for each hole
