

Virginia

NAVSUPACT Norfolk Northwest Annex

Facility and Location

In May 1955, the Naval Radio Station was activated to serve as a receiving facility for naval activities in the Norfolk area. After years of operating and functioning as a naval radio station, in September 1970, the Naval Radio Station Northwest became a component activity of the Naval Communication Station Norfolk. In 1975, the Naval Security Group Activity Northwest was established. Since 1975, Naval Support Activity (NAVSUPACT) Norfolk Northwest Annex has continued to change but still hosts a diverse group of tenant commands and personnel.

Media Sampled and Findings

Drinking Water — In 2007, four of four samples detected perchlorate from 0.12 to 1.35 ppb. Prior to 2007, two of two samples detected perchlorate at 0.23 and 14 ppb.

Appropriate Actions

Not Applicable. All samples were below the EPA and DoD Preliminary Remediation Goal of 15 ppb.
