MEETING MINUTES

Cochairs

Ken Hansen Base Reuse Advisory Group (BRAG)
Warren Yip Fleet and Industrial Supply Center Oakland (FISCO)

Attendees

Kurt Libby Resident of Alameda, Former Commanding Officer
Bobby Frantz Resident of Oakland
Dahn Midora Educational Publishers
Tim Little ARC Ecology and Rose Foundation
Harold Logwood Northern California Minority Business Opportunity Committee (Congressman
Dellum's Office)
Gary Pischke Resident of Alameda
Tony Tactay Engineering Field Activity West (EFA WEST), Remedial Project Manager
(RPM)
Jo Avalos FISCO, Public Affairs Officer
Susan Jun DTSC, Public Participation Specialist
James Nusrala Regional Water Quality Control Board
Gail Small PRC Environmental Management, Inc. (PRC), Installation Coordinator
Kathy Walsh PRC Community Relations Representative
John Bird Versar, Inc.

I. Welcome and Introduction - Warren Yip (FISCO)

Warren Yip called the FISCO Alameda Facility/Alameda Annex (the Annex) Restoration Advisory Board (RAB) to order at 9:30 a.m. He welcomed everyone to FISCO and initiated introductions.

A copy of the agenda and the sign-in sheets from the meeting are attached to these minutes as Attachments 1 and 2, respectively.

II. Meeting Minutes Dated March 12, 1996: Review and Approval - Ken Hansen (BRAG)

Ken Hansen solicited comments on the March RAB meeting minutes from RAB members. No comments or changes were raised. The March 12, 1996, meeting minutes were approved as distributed.

III. Environmental Baseline Survey (EBS) Update - Gail Small (PRC)

Gail Small (PRC) brought RAB members up to date on the status of the EBS. She stated that Levine-Fricke, a CLEAN subcontractor, has almost completed the EBS for the 37 reuse parcels at the Annex. Ms. Small referred to the draft EBS parcel map showing the reuse parcels. The Navy will host a meeting in the near future to discuss category selection for the 37 parcels with state regulators and community members.

Tony Tactay asked if comments are still being solicited on the map. Ms. Small stated that comments can still be incorporated as the map is finalized. Tim Little requested that a reference sheet that provides names or building numbers for each of the parcels. Ms. Small said that she would bring copies of the revised map to the next meeting. Ken Hansen asked if the parcels could have been established using a grid. Ms. Small explained that the parcel boundaries are based on planned reuse. She explained that some of the parcels may be combined or reconfigured.

When the EBS is complete, each parcel will be categorized as one of seven possible environmental condition of property classifications. Ms. Small briefly discussed the 7 categories and provided copies of category descriptions to each RAB meeting attendee. The preliminary EBS is expected to be submitted to the Navy in mid June.

IV. Base Realignment and Closure (BRAC) Cleanup Plan (BCP) Overview - Gail Small (PRC)

Now that the Annex has been designated as a BRAC base, EFA WEST will be preparing a basewide BCP. Ms. Small described a BCP as a road map for conducting cleanup necessary to transfer property to communities for redevelopment. The BCP is a management plan for environmental restoration, disposal, and reuse of base property. A BCP is intended to provide a snapshot of the status of environmental programs including restoration, compliance, and natural and cultural resources. The BCP for the Annex will set forth a strategy to execute environmental cleanup and meet compliance program needs. The BCP will include master schedule and funding requirements for conducting environmental programs. The BCP will be a "living" document to be updated annually.

Ms. Small outlined the physical contents of a BCP by describing the type of information included in each chapter. She also provided a graphic depiction of BCP participants and how they interact.

Gary Pischke asked whether there are any underground storage tanks at the Annex. Tony Tactay replied that one UST was pulled from the gas station. There are no other USTs at the facility although there are some aboveground storage tanks (AST). The status of the UST will be addressed in the EBS report.

The draft BCP is scheduled for completion at the end of June. The final BCP will be complete by November 1, 1996.

Ken Hansen told the RAB about a workshop he attended on April 10, 1996. Those in attendance included a representative from the Board of Supervisors, an ARRA member, council members, the Mayor of San Leandro, BRAG representatives, and the President of the Martin Group, Mike Kovarubius. At the workshop, attendees discussed the restoration and transfer of property at Hamilton Air Force Base (AFB). The Martin Group was instrumental in expediting property disposal at Hamilton AFB for a relatively low total cost. Tim Little stated that the Martin Group had bargaining leverage in the case of Hamilton AFB; if plans had not gone as well as expected, the Martin Group would have been reimbursed for all its predevelopment costs. Mr. Hansen indicated that he will contact Mr. Kovarubius to obtain more information so that the Annex RAB can benefit from the experiences of those involved with the cleanup and reuse of Hamilton AFB.

Warren Yip solicited agenda items for the next meeting. Tim Little suggested a review of checkpoints of the EBS. Gail Small will bring the revised EBS parcel map showing IR sites in relation to the EBS parcels. Mr. Little suggested that the RAB identify a point of contact to whom the RAB can send correspondence encouraging funding to be directed towards the cleanup activities at the Annex. Ken Hansen will report back from his meeting with Base Conversion Office representatives. Susan Jun requested that agenda items be added to the cover letter announcing each RAB meeting. James Nusrala inquired about the status of members who have missed one or more RAB meetings. Jo Avalos said that she would follow up with absentee members to inquire whether or not they are still interested in participating on the RAB.

Kurt Libby remarked that he is disappointed with the direction that closure and property disposal are taking at the Annex. When Mr. Libby was the commanding officer of the Annex, he had worked to get legislation in place to transfer the Annex to the City of Alameda. He feels that the process is moving significantly slower, now that the Annex has been designated as a BRAC base than it would have if documentation were already in place to transfer the base to the City.

The next Annex RAB meeting will be held at 9:30 a.m. on Tuesday, May 14, 1996.
