## Did You Know? Facts about Maine

- The first Air National Guard Unit to be organized in Maine was the Headquarters, 101st Fighter Group, now known as the 101st Air Refueling Wing
- Many of the buildings located at Portsmouth Naval Shipyard (PNSY) are in a historic district and 50 buildings are listed on the National Register of Historic Places
- The shipyard is one of four remaining naval shipyards in the nation and employs approximately 6,000 civilians

## Department of Defense Mission

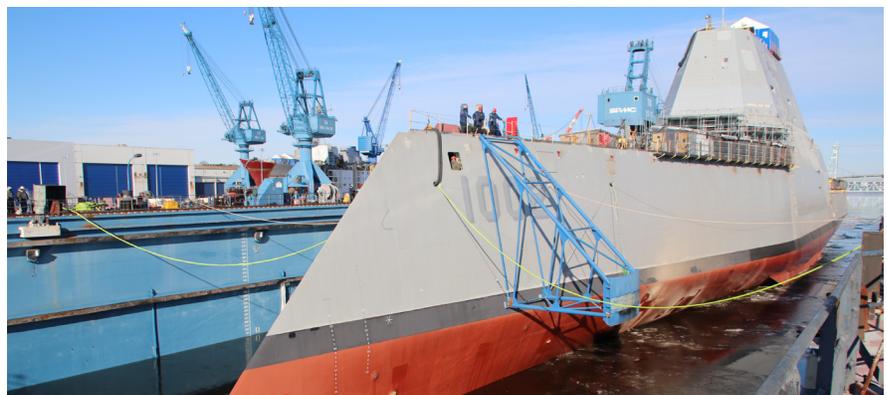

The mission of the Department of Defense (DoD) is to provide the military forces needed to deter war and protect the security of our country.

## Sustainability and the DoD Mission

DoD facilities on land, on the water, and in the air protect our nation. Regional Environmental Coordination (REC) works cooperatively with state agencies and governments on environmental efforts to ensure continued use of necessary land, sea, and airspace—protecting the military's ability to maintain operations into the future and prepare U.S. service men and women to defend our country.

## DoD and State Partnerships

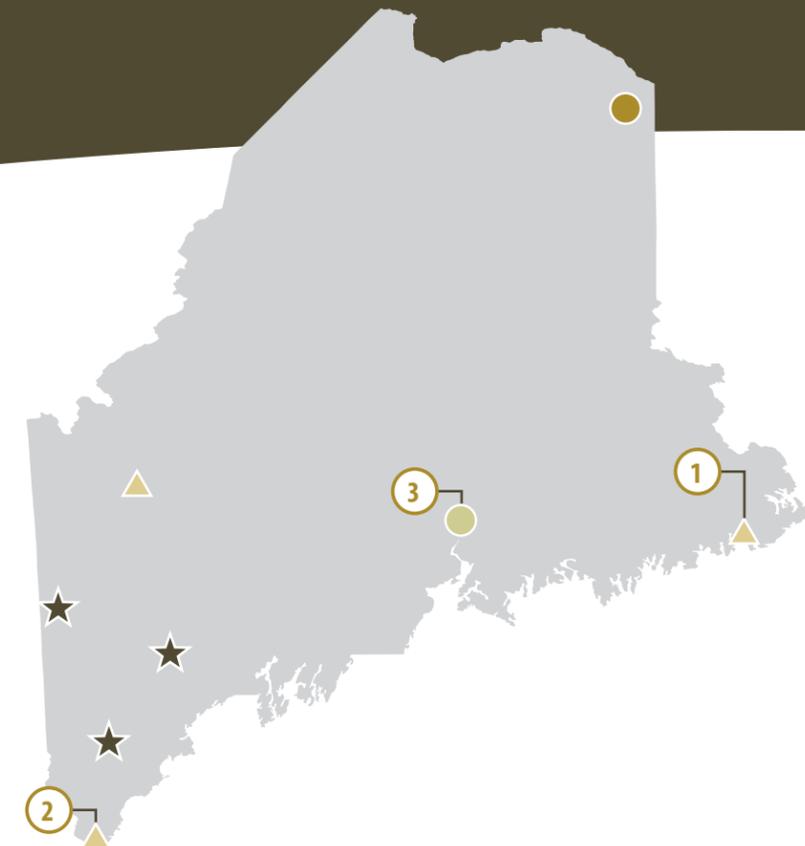

Through the REC program, DoD and military service representatives partner with state agencies and governments to strengthen environmental restoration and protection efforts and to promote long-term sustainability of the military mission. Program efforts include educating state agencies and officials about the military's operational and environmental needs, priorities, and concerns; communicating coordinated DoD positions on issues affecting military sustainment; and engaging in state legislative and rulemaking initiatives.

# Department of Defense in Maine

Maine is home to the Navy's oldest continuously operating shipyard, contributing more than \$751 million to the state's economy in 2017.

- ▲ Navy Active

## 1 Naval Communications and Telecommunications Area Master Station Atlantic Detachment Cutler

Naval Computer and Telecommunications Area Master Station Atlantic Detachment Cutler operates and maintains facilities and equipment to provide reliable command and control communications to operating units of the fleet in the Atlantic Ocean and Mediterranean Sea. Cutler's primary mission is to provide a Very Low Frequency broadcast link between high-level command authority ashore and U.S. and NATO ships, planes, and submarines operating at sea in areas of broadcast coverage.

## 2 Portsmouth Naval Shipyard

Portsmouth Naval Shipyard overhauls, repairs, and modernizes the Navy's nuclear-powered submarine fleet. The shipyard provides a full spectrum of in-house support—from engineering services and production shops, to unique capabilities and facilities, to off-site support—all serving the multifaceted assortment of fleet requirements.

## 3 Bangor Air National Guard Base

Bangor Air National Guard Base deploys air refueling, airlift, aerospace expeditionary forces, and expeditionary combat support forces to military operations worldwide, and provides air refueling to U.S. Strategic Command to support Global Strike Operational Plan tasks.

## National Guard and Reserve Components

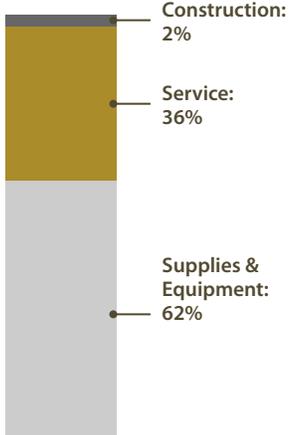

The Guard and Reserve organize, train, and equip citizen soldiers and airmen for rapid mobilization in the state, nation, and around the world. While all Reserve components have a federal mission to augment active duty forces in times of crises, the Guard has the unique mission of serving the Governor during state emergencies. The Maine Army National Guard includes 48 units across 26 communities in Maine. Headquartered in Augusta, the Maine Air National Guard includes the 101st Air Refueling Wing, which provides 24-hour air and ground refueling for many aircraft whose destination takes them across the Atlantic.
